Ronald Reagan holds a copy of his statement.

'No Surprises' Foreseen as Reagan Announces

By Lou Cannon and David S. Broder Washington Post Service

WASHINGTON - President Ronald Reagan was scheduled to formally announce his election intentions Sunday night in a nationally televised speech from the White

Administration officials said there would be "no surprises" in the five-minute announcement and that Mr. Reagan would say

he was seeking re-election.

Reagan activists from around the country were to gather at a hotel here beforehand in celebrate and watch the speech.

Mr. Reagan starts his campaign as a strong favorite who nonetheless expects a difficult and well-organized challenge from the Democrats. The premise of the Reagan strategists is that Walter F. Mondale will be the president's opponent, and a good one.

"Ronald Reagan is in reasonably good shape, but we are not the least bit sanguine." said James A. Baker 3d, the White House chief of staff. "We know from experience that presidential elections have a way of closing up and getting tighter after the nominations. We're expecting a very close race and prepar-

ing for it."
According to a recent Newsweek poll, Mr. Reagan enjoys the highest fourth-year ap-proval rating since Eisenhower in 1956. Ei-

NEWS ANALYSIS

senhower was also the last president uncoposed for his own party's presidential

A Gallup Poll indicated a Reagan approval rating of 54 percent, his highest in two years, with a disapproval rating of 37 percent.

Peace and prosperity were the Eisenhower issues, and they are Mr. Reagan's at the outset of 1984. The economy is recover-ing. Except for the U.S. involvement in Leba-

non, no U.S. forces are involved in a shooting

Mr. Reagan has dominated television with personal charm and a performer's skills and a majority of Americans give him high marks for leadership and commitment.

His campaign has been bolstered by timely staff changes that have left Mr. Baker in undisputed control and provided a close-knit and experienced team at both the White House and in the Reagan-Bush re-election committee.

The president begins his campaign, eight days before his 73d birthday, on a note of high confidence born of successful experiences of the past. He has won decisive vic-unies in two races for governor of California and one for the presidency.

His only defeat in a full-scale campaign was against an incumbent president, Gerald R. Ford, from whom he almost wrested the Republican nomination in 1976.

Balanced against this array of assets are formidable liabilities. Mr. Reagan has polarized the country and mobilized determined

constituencies against him. Polls show him vulnerable on foreign potky, especially if he fails to find a formula for

withdrawing the Marines from Lebanon. He must overcome fears that his dealings with (Continued on Page 3, Col. 3)

Jackson Conglomerate Draws Fire on Finances

By Jeff Gerth

New York Times Service WASHINGTON - The organization the Rev. Jesse L. Jackson led before entering the presidential race became a highly visible social movement, opening some people's eyes to injustices and motivating others to improve themselves.

But U.S. government anditors and state officials have raised questions about the finances and records of his multimillion-dollar conglomerate, People United to Serve Humanity, or PUSH.

Public records show accusations of unpaid debts, misspent funds and failures to file required reports. PUSH has settled many of the dis-

In addition to government grants, PUSH programs have also been financed with the help of grants from corporations and foun-

In one document filed with the government, the PUSH Founda-tion, a principal fund-raising entity for the organization's affiliates, dis-closed that it received \$100,000 from the Arab League from 1978 to

The confederation of 21 Arab nations was the largest identified donor to the foundation during the

last five years. While there is nothing illegal about accepting funds from foreign sources, the acceptance of the Arab League contribution could undermine Mr. Jackson's efforts to improve his relations with Jewisb

An earlier disclosure that Operation PUSH received \$10,000 from view, disclosed preliminary inforthe Libyan Embassy in the United mation from Mr. Jackson's 1983 States in 1979 prompted a Justice personal tax returns indicating be Department inquiry into whether had about \$115,000 in income last Mr. Jackson was required to regis- year. The inquiry came from his salary and accumu-was closed recently without action. lated leave time while he was presi-lin an interview Saturday, Mr. dent of Operation PUSH.

Jackson said he had not known about the Arab League contribution and said he had no official rule in the foundation.

Asked whether Arab contributions to PUSH had been a sensitive matter, Mr. Jackson said, "So has white money, and black money, except all of it is the same money and that's the double standard."

John H. Bustamante, Mr. Jackson's personal attorney and general counsel for all PUSH entities, including the PUSH Foundation, said in an interview Saturday that he bad received the \$100,000 in 1981 in the United States from Clovis Maksoud, the chief representative of the Arab organization in the United States and its permanent observer at the United Nations.

"PUSH began an effort to do things in Africa," he said. "We had solicited and asked for funds from several states, including Libya I went to Clovis Maksond, their ambassador here in the United States, and asked him if he could support

Mr. Bustamante, who also is Mr. Jackson's financial adviser, said he was not sure if be had informed Mr. Jackson of the \$100,000 donation. A spokesman in the United States for the Arah League said the

\$100,000 donation was made to the foundation in 1981 as a gift to Americans who could benefit from PUSH programs.
While Mr. Jackson has not been

an official of the PUSH Foundation, public records show that over the last few years the vast majority of the foundation's grants have gone to PUSH affiliates headed by Mr. Jackson.

Foundation records show a total in 1981 of \$125,000 in gifts, grants and contributions. The records also show that most of the foundation's receipts that year, which also in-cluded \$129,000 from an awards banquet, were passed on to another PUSH affiliate, PUSH for Excellence Inc., a nonprofit corporation headed by Mr. Jackson and involved in education programs.

the PUSH organizations in September and announced his candi-

dacy in November. Mr. Jackson has no legal obligation to disclose records of private organizations with which he had

been affiliated. Mr. Bustamante, in the inter-

The rest of his income consisted of speaking fees of about \$37,000. micrest payments of \$4,800 and vment for miscellaneous services to PUSH amounting to \$9,500, ac-

cording to Mr. Bustamante. Court records in Chicago show that from 1979 to 1981 PUSH organizations were asked for financial records and testimony of top PUSH officials by three different parties seeking payment of back debts.

In each of the cases, no records were produced and PUSH made payments to satisfy the debts. Mr. Bustamante said that he handled two of those cases and that the settlement payments were to satisfy bona fide claims and not to avoid disclosure of PUSH records.

Chester A. Crocker, a U.S. assistant secretary of state, left, with R.F. Botha, the South African foreign minister.

A Cease-Fire in Namibia Mr. Jackson went on leave from Expected Soon by Envoys where and announced his candi-

By Allister Sparks Washington Post Service

JOHANNESBURG - A ceasefire in the 17-year war in South-West Africa appears to be imminent following talks between South African leaders and the U.S. assistant secretary of state for African affairs, Chester A. Crocker, diplomats say here.

The diplomats said Saturday night that they expected the South African prime minister, Pieter W. Botha, to make a statement in Parliament this week that would lead to a 30-day cease-fire.

The sources expected Mr. Botha to announce the withdrawal of South African forces from parts of southern Angola that they are believed to have occupied more or less continuously since December 1981, although South Africa has

denied this. Assuming the cease-fire goes into effect, it should be followed by a meeting herween the South-West Africa People's Organization and South Africa's administrator-general in South-West Africa, Willem van Niekerk, the diplomats said, SWAPO is the chief political and guerrilla movement in the disputed territory, which is known as Na-

On Sunday, Mr. Crocker went to Zambia as part of a mediation effort with the so-called "front-line countries." These countries also include Mozambique and Tanzania, which he also planned to visit, and Zimbabwe, Boiswana and Angola.

On Saturday, a deputy assistant secretary in Mr. Crocker's office, Frank G. Wisner, was in Lisbon talking with representatives of the Angolan government. That day, Mr. Crocker met with Mr. Botha. and on Friday be bad talks with South Africa's foreign minister. R.F. Botha.

Those connected with this latest attempt to revive the negotiations on Namibia are besitant to express optimism on an issue that has undergone so many breakdowns in the past. But there is hope that the cease-fire may harden into a lasting disengagement if it can survive the

This, observers say, could improve the chances of being able to put into effect a 1978 United Nations plan for transition to Namibian independence. The plan, which calls for UN-supervised elections. has been accepted by all sides, including South Africa. The analysts warn, however, that

SUSDICIOUS CAT.

"The driver refused to stop," be said. "He was shot and wounded. He escaped. They found blood in the car and ammunition and explosives." Israeli soldiers

ran into the mosque searching for the driver.

In Israel itself there is a growing debate over whether the 15,000 Israeli soldiers should remain in southern Lebanon where an average of one Israeli soldier is killed or wounded every day.

The Israelis occupy a swath of Lebanon that is 30 miles (48 kilometers) deep, running from their border north to just above the shallow Awali River. Western military analysts say that there is now little

threat of an organized attack against Israel from the area and that protection of the border could probably be accomplished with a smaller zone.

Last May 17. Israel signed a troop withdrawal agreement with Lebanon that provided for a so-called

security zone of about 15 miles in depth. But the accord has not been put into effect because of Syrian Meanwhile, friction between the Israeli troops and

the roughly 700,000 people of southern Lebanon appears to keep intensifying.

Mr. Kalash said be felt the Israelis had gone far beyond the requirements of security. "There is Israeli pressure on everybody," be said.

In early November, in reaction to a car-bomb attack against one of their military headquarters, the Israelis barricaded the bridges on the Awali River, effectively isolating southern Lebanon from the rest of the country. For a long time, Lebanese had to get an Israeli pass to cross the river in their own country.

The Israelis continue to close the bridges each day at 5 P.M. and to search vehicles and individuals' bags as they cross during the day.

A month ago, it appeared that the resistance to the Israelis was being carried out mainly by the Shifte Moslems who account for nearly 75 percent of the people in southern Lebanon. Now, the police say it comes from various sectors.

"No single organization is doing it," an officer said,
"It is coming from the people, Lebanese patriots."
The Israelis have been trying to recruit Lebanese to
form paramilitary units to cooperate with the Israeli
Army. They have not had much success. The few
recruits are referred to by many Lebanese as "spies" and "traitors." Some have been killed.

In front of his mosque, Mr. Mallah said that, when the Israelis arrived in 1982, "they carried a gun in one hand and candy in the other."

"But after they were finished with the Palestinians." he said, "they started to do the same thing to the Lebanese. So we started making our resistance."

the Soviet Union and other countries outlawed nuclear detonations in the atmosphere, space and oceans, the United States and the Soviet Union have conducted only underground tests of nuclear weapons. Explosions are used to evaluate new warhead designs, salety mechanisms and the reliability of

weapons already in an arsenal. For more than a decade after the 1963 limited test ban treaty went into effect, the policy of classifying the existence of some underground tests was applied variably and was often based, according to scientists,

E. Ogle, former test director at the

Both superpowers can detect underground explosions through seis-

mic stations. The full-disclosure policy, begun in 1975, was followed until about a year ago. The government now keeps secret the existence of all nuclear tests less than five kilotons. that is those having an explosive force equal to that of 5,000 tons of TNT, according to a federal official. The atom bomb dropped on Hiroshima had an explosive force

of 13 kilotons. In any case, the Soviet military undoubtedly knows about each test in Nevada, even small ones, acon government estimates of wheth- cording to an official at the Lawgovernment facilities that design

For 1980, 1981 and 1982, the overnment announced 14, 16, and IS U.S. nuclear tests. Separate tests were also conducted by Britain at the Nevada site. The 1982 figure was the largest the United States had announced since 1970, and it generated some criticism in the press and among scientists at uni-versities and federal laboratories.

Despite the budget increases, some of which were attributable to inflation and equipment purchases the government in 1983 announced a drop in the number of tests to 14. In the period when the United

States was increasing its tests, so was the Soviet Union. According to the Stockholm International Peace Research Institute, which monitors worldwide nuclear explosions with the aid of seismie detectors, the Soviet Union conducted 21 tests each year in 1980 and 1981. In 1982, the most recent year for which data are available, the figure rose to 31, the greatest number since the signing of the limited test ban treaty. Except on rare occa-sions, the Soviet Union does not announce any nuclear tests.

WORLD BRIEFS

MOSCOW (Resters) — The Soviet Union has officially accused the United States of violating arms accords and "contradicting norms of international law," the official Soviet news agency Fass said Sunday. Tass said that the Soviet Embassy in Washington handed a diplomatic message to the State Department a few days ago, listing what it said were violations of bilateral agreements. The note appeared to be a direct response to similar charges made by President Ronald Reagain aweek ago that the Soviet Union had violated or probably violated seven arms control agreements between the two countries.

control agreements between the two countries.

Moscow charged two direct infringements of disarmament treaties covering strategic missiles and nuclear weapons tests and said if was concerned that other U.S. arms developments would undermine ensuing agreements. It said that deployment of Pershing-2 and cruise missiles in Western Europe breached the SALT-2 long-range missiles accord because the weapons could reach Soviet territory.

Andropov to Run for Supreme Soviet

MOSCOW (UPI) - President Yuri V. Andropov officially became a candidate for the Supreme Soviet in elections to be held March 4, Tast

Mr. Andropov, 69, has been absent from public view for five and a half months due to an undisclosed illness. His nomination on Saturday indicated that he has no intention of stepping down.

Elections to the 1,500-seat, two-chamber parliament are held every five years. In 1979, official figures showed the Communist Party slate winning

99.99 percent of the vote. Candidates, who have to run with official

Lebanese Peace Mediation Continues

approval, generally are unopposed.

BEIRUT (UPI) — The U.S. special Middle Fast envoy, Donald H. Runsfeld, and Saudi mediators worked to end a three-week deadlock holding up a Lebanese government security plan Sunday while fighting left two Lebanese soldiers wounded, U.S. and Lebanese sources said.

The intensifying diplomatic moves followed a Druze rejection of the government's offer to reinstate 800 Druze soldiers and officers to the Lebanese Army. The offer was made Thursday because American and Saudi mediators said it could break the deadlock over implementation of Saudi mediators said it could break the deadlock over implementation of

the Saudi security plan. Lebanese officials said.

Two Lebanese soldiers were wounded on the airport road in Benut when militiamen in a Shitte neighborhood opened fire on their patrol, the state radio reported. The army exchanged mortar and rocket fire with Druze rebels on a Chui mountain ridge east of the capital, it said.

Kohl Promises Study of Arms Sales

JERUSALEM (Reuters) - Chancellor Helmut Kohl of West German ny ended a five-day visit to Israel on Sunday with a pledge that his country would consider Israel's fierce opposition when it decides whether to sell arms to Saudi Arabia.

Mr. Kohi said at a news conference that he had received "very meent," representations from every Israeli leader he met, but he said he did not come to Jerusalem to make a final decision. "I reaffirm that my government will, in making all its decisions in this field, fully consider the legitimate interests of friendly countries in this region and be aware of the common responsibility for peace," he said.

Mr. Kohl, who toured Arab states last year, was asked how he had responded to Israeli fears that arms sold to Saudi Arabia might be passed to other forces for use against Israel. He replied that this question had been "discussed in a most lively manner," but be declined to give details,

Bomb Attempt Reported in Jerusalem

TEL AVIV (UPI) - Police reportedly found explosives on Temple Mount after what sources described as an attempt by a fanatic Jewish group to blow up the two major Islamic mosques at the site in east

Police said Sanirday that no arrests were reported. They said Moslem guards alerted security authorities early Friday after noticing two intruders using ropes and ladders to pull boxes over the eastern wall of the compound, where two Jewish temples stood centuries ago. The intruders

Police gave no further details, but other sources said the boxes held 268 pounds (121 kilograms) of explosives. One source said a "fanatic Jewish underground" planned to blow up the al-Aqsa and Dome of the Rock mosques, Islam's second and third holiest shrines. The source said the attempt was timed to coincide with the visit to Israel of Chancelloi Helmut Kohl of West Germany, which ended Sunday.

Pakistan Accuses Afghanistan of Raid

ISLAMABAD, Pakistan (UPI) - Afghan fighter jets killed 40 people and injured at least 50 in strating and bombing attacks just inside the Pakistani border, officials charged here Saturday.

According to the government account, the attacks took place Friday near Angur Adda, which is several hundred yards inside Pakistan, in a rocky, mountainous region inhabited by several thousand Afghan rebels and refugees. One bomb was dropped in an attack by a number of Soviet made MiG fighters and about 100 rockets were fired, a government

The government summoned the Afghan charge d'affaires and lodged "a strong protest." It also planned to inform the United Nations secretary-general, Javier Pèrez de Cuèllar, the spokesman said:

Israeli Withdraws From the Cabinet

JERUSALEM (AP) - Mordechai Ben Porat, a minister without portfolio, resigned Sunday from the Israeli cabinet over the policies of Prime Minister Yitzhak Shamir's government on the economy, Lebanon and its failure to form a broad-based government with the opposition

Mr. Ben Porat, an independent, retains his seat in the parliament, but his resignation from the 20-member cabinet and Mr. Shamir's coalition means that Mr. Shamir can no longer count on Mr. Ben Porar's vote in keep his government in office. Before Mr. Ben Porar's resignation, Likud held a 64-56 edge in the 120-scat parliament.

"I have freedom of action," Mr. Ben Porat said in a radio interview. He said he would vote "in accordance with my beliefs."

Standing Room Only

For Future Execution The response was quick when the California corrections department announced that any-one could ask to attend the next execution at San Quentin pris-on, according to Colman Mc-Carthy, a Washington Post columnist. Within two days, more than 100 requests for seats reached the warden's office. But 19 vehicles, the county was fined \$630,000. a prison spokesman said only 50 persons would be allowed in, because of safety regulations. The requests followed a Jan. 23 Supreme Court decision rejecting an argument brought by Robert Alton Harris, an immate Visitors to New York City, be on San Quentin's death row, on an unrelated issue. No date has

Invasion of Grenada Called 'Clear Success'

been set for his execution.

A Reagan administration official has reported that the Grenada invasion, goof-ups aside, was "a clear success in every

major aspect."
Fred C. Ikle, undersecretary
of defense for policy, made the
comment before the House Armed Services Committee. He also gave an official accounting of casualties in the operation, which began Oct. 25. There

Fred C. Ikle

were 18 U.S. servicemen killed and 116 wounded, 24 Cubans killed and 59 wounded, and 45 Grenadians killed and 337 wounded, he said. Of the Grenadians killed, 24 were civilians, including 21 killed in the mistaken bombing of a mental hospital, Mr. Ikle said 784 Cobans were found on the island. Not every member of the

House committee was impressed by Mr. Ikle's assessment of the operation. The mission was accomplished but it was a good deal less than the totally successful operatioo they claim," said Representa-tive James A. Courter, a New Jersey Republican. "It took some luck, an overwhelming force ratio, and we lost more equipment than we should

EPA Gets the Goods On Philly's Finest

U.S. law forbids tampering with the pollution-cootrol de-vices installed on most cars. So the Environmental Protection Agency announced a stiff fine when its investigators got the evidence on a surprising offend-er: the Philadelphia Police Department. The EPA fined the Philadelphia force \$327,000 for

disconnecting catalytic converters on 131 police vehicles. The EPA levied a stiffer fine against Greenville County. South Carolina, where county employees frequently pumped leaded gasoline into vehicles de-signed for unleaded fuel. For using the leaded fuel, which damages pollutioo-eootrol equipment, and tampering with anti-pollution devices on 13 of

Face-Lift to Begin On Statue of Liberty

advised: There is only one week left to get an unimpeded view of the Statue of Liberty before 300 tons of scaffolding goes up around it for a 30-month renovation project expected to cost about \$30 million. The statue will be closed intermittently as crews replace 1,600 wrought iron bands that hold its copper skin in place, reinforce its uplifted arm, replace the torch, and install a oew elevator. Officials hope to finish the work in 1986, the 100th anniversary of the dedication of the gift from the people of France.

Aid to Poor Families: Holes in the Umbrella

A Columbia University study confirms that poor families to Sweden, France, West Germany, Britain, Australia, Israel and Canada can count on proportionally more government help than can poor families in the United States. All eight countries except the

United States provide allowances to families with children. and all but the United States and Australia have statutory maternity benefits, according to the three-year study. "Civilized societies every-

where except in the United States recognize that children are a valuable resource," said one of the study's authors, Al-fred J. Kahn of Columbia's School of Social Work. The study ooted that to Swe-

den, support payments to a sin-gle, jobless mother of two are equal to 93 percent of the aftertax income of the average worker in the country. France comes next, and Australia and Israel trail with 50 percent.

Notes on People

Spurned twice before in bids to buy cooperative apartments to Manhattan, former President Richard M. Nixon has won tentative approval of an offer to purchase a 12-room co-op oo Park Avenue for \$1.8 million. An occupant of the building, the philanthropist Jacob M. Kapian, 92, won an initial court delay after contending that Mr. Nixon's presence would turn the building into a "tourist at-traction." But the building's directors last week approved the transaction, pending a vote by the building's shareholders. The late Vice President Hu-

bert H. Hamplarey once won-dered out loud whether his Minnesota political protégé,
Walter F. Mondale, had "the
fire in the belly" needed to run
for president. But the Secret
Service agents protecting Mr.
Mondale in his campaign for
the Democratic presidential nomination appear to have no doubts on the matter. Their

nickname for him: "Dragon."

Reagan Budget to Seek Air Force, Navy Gains

By Richard Halloran New York Times Service

WASHINGTON - The air force and the navy would make same value. large gains to a proposed \$305.7-billion military budget that President Ronald Reagan will submit to armed forces, largely the air force, Congress Wednesday, according to to prepare for a protracted ouclear Defense Department documents.

The proposed budget for the air force has been set at \$108.7 billion, a 15-percent rise over the 1984 fiscal year after accounting for expected inflation. The navy's budget proposal for the fiscal year beginning Oct. 1 will be \$101.3 billion, a resent a 13-percent increase in the 13-percent increase, the documents

In addition, according to the documents, the Defense Department will ask Congress to permit percent increase. It then voted an 8-percent rise for 1983, and growth of ment will ask Congress to permit the air force to enlist 15,000 more airmen for a total of 610,000. The

In contrast, the army's proposed budget would grow 10 percent, to \$77.9 billion, and the army would be allowed to enlist 1,000 more budget specialists say the trend in that account is the best gauge of military strength.

In actual spending, the 1985 military budget is said to envision

get has been steadily upward. The 1985 budget proposal would re-verse a turn downward in the navy budget for 1984, which was modi- ing the federal deficit. fied in 1983 when Congress ap-proved construction of two nuclear-powered aircraft carriers at a cost of \$6.8 billion.

Reagan Talk: 'No Surprises' Are Foreseen

(Continued from Page 1) the Soviet Union have increased

the risk of war. Unlike four years ago, when be triumphed over an unpopular in-cumbent who had survived a bitter intra-party battle, Mr. Reagan faces the prospect of a Democratic Party united on the single issue of defeating him. Mr. Reagan strategists say they are impressed with both the talents and the organizational skills of the Mondale forces. In 1980, Mr. Reagan started far

behind President Jimmy Carter. He now leads Mr. Mondale by nearly 20 points in surveys taken by a White House pollster, Richard B. Wirthlin, by 16 points in an NBC News-New York Times survey and by 3 points in an ABC News-Washington Post poll. Mr. Reagan's worst recent trial heats were in a Gallup Poll of Jan. 22 that found him tied with Mr. Mondale and John Glenn.

But the presidential campaign is 50 state-by-state contests in which Reagan strategists believe be has a stronger positioo than in the popular vote. A recent Republican estimate gave Mr. Reagan a "lock" on 157 electoral votes, with 270 needed for comination. In the 10 most populous states,

Mr. Reagan strategists consider only Massachusetts unwinnable. They put California, Florida and probably Texas solidly in the Reagan column. "The Republicans have a big advantage to having a president from

California and a vice president from Texas," a Mondale operative Republicans expect the election to be a referendum on Mr. Reagan.

"The overarching issue is leader-ship," said Mr. Wirthlin, the pollster. In 1980 the country rejected one kind of leadership, and Walter Moodale is still very much part of it. Ronald Reagan offered a oew direction. The first key question is how well he accomplished the goals he set for himself and the secood is whether the voters will give him a mandate for a secood term to cootinue that leadership." Democrats coocede that Mr.

Reagan has a winning personality, a rare skill in exploiting television, enced campaign team and a major advantage as an incumbent unopposed for renomination. posed for renomination.

But they say they believe those advantages will be offset, as the year goes on, by what they consider serious sub-surface weaknesses.

"He has alienated bigger chunks of the electorate than any previous president," said Mr. Mondale's pollster, Peter D. Hart.

The intensity of the opposition, particularly in minority communities, encourages Democrats to believe they can register and vote millions more people against Mr. Reagan than turned out in 1980.

"The idea that be is unbeatable has no foundation," a Mondale strategist said Friday.

"He stood with every polluter in America," Mr. Mondale said of the president. "He'd rather take them to hinch than to court." Mr. Mondale's reponse to Mr.

Reagan, his harshest attack yet on the president, was made Friday and Saturday in a series of news conferences and speeches in Sacramen-to and Seattle.

Privately, Mr. Mondale and his staff were delighted that Mr. Reagan, in a speech in Atlanta on Thursday, had entered the political fray, and the candidate capitalized on the "special interest" charge, first leveled against him by a rival for the Democratic nomination, Senator John Glenn of Ohio. Although Mr. Reagan oever named the former vice president, aides to the president said that be was referring to Mr. Mondale in his accusation that some candidates were trying to "buy support" and "making promises to special interest

Several aides to Mr. Mondale said the key strategy of the campaign for the former vice president was to point up the sharp contrast between Mr. Mondale and Mr.

Another aide said that, although Mr. Mondale was "uncomfortable" with the special interest charge when Senator Glenn used it and did not enjoy attacking his Demo-cratic rival, he bas long "relished the opportunity" to lash back at Mr. Reagan. "He's wrong, wrong, wrong on every issue and I welcome a debate

over what is a special interest and what is a public interest," Mr. Moodale said at a oews conference in Seattle Friday. Hours later Mr. Moodale told an enthusiastic audience at a Democratic Party fund-raising event, "I'm going to get the nomination and I'm going to beat that crowd by the biggest margin any incumbent ever got run out of At a news conference in the Cali-

Panel to Rule On Restart of U.S. A-Plant

Three Mile Island Unit Could Reopen in June

By Jane Perlez New York Times Service

WASHINGTON - The Nuclear Regulatory Commission has an-nounced that it will decide whether to allow the undamaged ouclear reactor at Three Mile Island to reopen without waiting for the outcome of a pending criminal trial involving the owners of the plant. The vote on Friday, affirming a decision taken earlier in the week in

private, was 3-2. The Unit 1 reacior, the twin of Unit 2, which was severely damaged in an accident in 1979, could reopen as early as June. The chairman of the commission, Nunzio J. Palladino, said he believed the agency could judge the "competency and integrity" of the management of General Public Utilities Corp. without awaiting the trial of its subsidiary, which management of the plant at the time of operated the plant at the time of the accident. Mr. Palladino voted with the majority.

The two dissenting commission

ers, Victor Gilinsky and James K. Asselstine, attacked the decision in strong language, saying it was tan-tamount to authorizing a restarting of the reactor. They charged that the agency was allying itself with what they termed incompetent top

management at the otility.

In a hearing room crowded with people who live close to the reactor at Middletown, Pennsylvania, ocar Harrisburg, Mr. Palladino said that Friday's vote "is not a restart decision and does not authorize re-

The president of General Public Utilities, Herman Dieckamp, who was in the audience to the hearing room Friday, welcomed the deci-sioo. He said that the reactor was ready for operation and that be would have preferred April as the possible restarting date. The governor of Pennsylvania,

Dick Thornburgh, a Republican, said Friday that be was opposed to restarting the Unit 1 reactor until the commission resolved how to clean up the radioactive material still remaining at Unit 2.

The Unit 1 reactor at Three Mile Island, which was closed for refuel-

ing before the March 1979 accident

at Unit 2, has not been permitted to operate since, Last November, the Metropolitan Edison Co., the subsidiary of GPU that operated Three Mile Island at the time of the accident, was indicted on criminal charges of falsifying results of safety tests cooducted at Unit 2 before the acci-

A Moment to Seize

The Reagan administration has a strange style in handling olive branches. The president recently invited Moscow to join in new efforts to control nuclear arms. But he then let the U.S. Air Force advertise its contrary interest by testing an anti-satellite missile. and he let officials sour the air by loudly accusing the Russians of violating arms agreements.

The air force test threatens to initiate a new round of weapons development that, to America's great detriment, would render all satellites vulnerable. Satellites are vital for communicating with nuclear forces, verifying Soviet treaty compliance and supplying early warning of attack. An erratic and cumbersome antisatellite missile developed by the Soviet Union poses scant threat to them.

Last August, doubtless to head off the far superior air force missile then in development, the Russians proposed an anti-satellite treaty. Although imperfect, it offers a serious basis for negotiation. But the Reagan administration refuses even to talk, while the air force presses ahead. Once its missile proceeds beyond a certain stage, Soviet leaders might feel forced to develop theirs further. American satellites are expensive and long-lasting, whereas the Soviet Union depends on a multitude of cheap throwaways. Which stands more to gain from making satellites inviolable?

An anti-satellite treaty would serve the interests of stability, and American interests in particular. President Reagan not only spurned it with the air force's test on Jan. 21, but two days later he accused the Soviet Union of violating existing treaties on arms control. The channel for addressing such charges, known as the Standing Consultative Commission, has

resolved every disagreement brought before it during the Nixon, Ford and Carter administrations. In doing so it closed loopholes in the complex antiballistic missile treaty. This administration prefers to begin by crying foul.

But amid its ragbag of charges there is one serious issue: the Soviet Union's construction of a large phased array radar at Abalakova in Siberia. The Russians contend that it is for tracking objects in space, but it could also defend against ballistie missiles, a purpose forbidden by the ABM treaty. The treaty's ambiguity on dual-use, phased array radars merits discussion. Mr. Reagan flung the charge at the Russians for the first time last September and now makes a public rumpus about his disbelief in their response. That offends the private diplomacy through which all such disputes have been settled in the past.

Last week Yuri Andropov reiterated the Soviet offer to start talks on warding off an arms race in space. Why not explore what be has in mind? At the same time, Mr. Reagan could let it be known that he expects a responsive discussion — privately, if the Russians desire - of the Abalakova radar and phased array radars in general.

Strength is essential to negotiate successfully," Mr. Reagan said last week. But it is one thing to modernize weapons to overcome discernible deficiencies. It is quite another to expand the arms race or to unilaterally pursue new weapons in ways that undermine past agreements. Besides, the Russians, too, will not negotiate from weakness. If this moment, when both sides feel almost equally strong, is lost, there may not be another for a long time.

— THE NEW YORK TIMES.

Great Success Abroad?

Mr. Reagan perceives that his foreign policy has been a great success. He discerns a new respect for America, new prospects for peace and freedom and, not least, new vistas for bipartisanship in foreign policy. The rest of us can hope both that he is right and that be is not taking his review of his own performance as the last word. Politicians tend to reach for achievements in the sphere of perceptions when they have few achievements to reach for in the sphere of actual deeds. In the latter category, Mr. Reagan puts Grenada. During his State of the Union message, be presented to Congress a live authentie hero of the American intervention to dramatize his point,

Meanwhile, there is Lebanon, Again, Mr. Reagan perceives "progress." But a sizable and growing number of legislators, seeing trouble and an aimless policy, say they want to revoke or at least amend the 18-month permit for the marines that they voted last September, Lebanon, the single place where American servicemen are daily in danger, is getting drawn deeply into the political wars. The tide has now caught up House Speaker O'Neill, a Democrat formerly supportive of the president. Senator Gary Hart, a Democratic presidential candidate, suggested after the Reagan address that parents of teenagers "may worry that your 17year-old son might go to Lebanon instead of college next year." Is Senator Hart under the impression that there is a draft?

The fact is that the onset of Mr. Reagan's fourth year finds him in a curious place in foreign policy. If be can fairly claim to have restored respect for U.S. power, he has been much less successful, to put it charitably, in building respect for his skill and judgment in using U.S. power. Translating the new strength and resolve into policy turns out to be not so easy. In the key places - Lebanon, Central America, Moscow - the results that would vindicate the Reagan approach are not there.

In Lebanon, where the pace of events seems to be forcing some kind of break soon, the administration has no responsible choice but to play its not-so-strong diplomatic hand a while longer to belp secure what benefits for Lebanon may still be available. Policy aside, it is not clear that the Democrats will reap politi-cal advantage by undercutting Mr. Reagan. But it is not merely the situation on the ground in Beirut, cruel as it is, that troubles many citizens. Mr. Reagan has yet to win much confidence in his ability to play his hand.

William Safire, the distinguished columnist and word maven from The New York Times, naturally got there before we did. Calling him, we learned that he had looked in on this back in May of 1982 and had established that the term is a transposition from General Haig's army bivouacking days when there was no accounting for the kinds of things that were likely to seek asylum in your knapsack during

a night on the sod. Ergo: morning snakecbeck.
We are stunned that the term's Washington utility was not spotted immediately by Safire readers. Can there be a single media warren or bureaucracy coven in town where it could not live a useful, even indispensable life? Be warned: We plan to make it our own.

- THE WASHINGTON POST.

Other Opinion

Making the Best of Reagan

America is not getting tired of Ronald Reagan; indeed, not since the days of Dwight Eisenhower has a president seemed so secure in the hearts of the people. That being the case, is should be the merest common sense for America's allies to try to understand the Reagan view of the world, instead of dismissing it patronizingly as the simpleminded notion of a former Hollywood movie star. Rhetorie apart, the Reagan record has been less crisis-ridden than those of his recent predecessors. The cowboy image persists less because of anything he does than because his style and language lack a certain polish and sophistication.
Whereas many commentators lean over backward, or at any rate leftward, to put the

best gloss on Mr. Andropov, they habitually portray the American leader in the worst light possible. The assumption has been, of course, that the septuagenarian president would not be around for long. But if he gets re-elected in November, his chances of outlasting in power most of the other world leaders are pretty good. It is time to start trying to make the best, rather than the worst, of Ronald Reagan. - The Sunday Telegraph (London).

1909: Minister Wins Lisbon Duel LISBON -- Senhor Wencesiao de Lima, Minister of Foreign Affairs, fought a duel [on Jan. 29] with Senhor José Azevedo, one time Portuguese Minister to China and now editor of the "Diario Popular." Cause of the duel, fought in the Lisbon Velodrome, was an insulting article published by that journal. Senhor de Lima wounded his adversary severely by running him through the right arm. The seconds of Senhor de Lima were Senhor Eduardo Villaca and Conde Pacvietra, while those of Senhor Azevedo were Senhor Pimentel Pinto and Sen-

hor Anselmo Andrade. The Minister of For-

eign Affairs has been the object of numerous

congratulations on the result of the duci.

1934: Roosevelt to Sign Gold Act

WASHINGTON — President Roosevelt's sig-nature on the Gold Act is expected to bring a series of proclamations, the most important of which will be that proclaiming the revaluation of the dollar, which, it is generally agreed, will be at the 60-cent maximum anthorized by the new law. Economists have been divided as to whether the revaluation proclamation will immediately change the position of the dollar abroad. Some were inclined to believe that the tide of returning dollars may more than offset immediate devaluation effects, but the treasury, with such enormous funds at its disposal, will eventually be able virtually to hold the dollar at whatever rate is desired

Reagan's Softer Approach YURI? Should Be Taken Seriously

By Philip Geyelin

anything said by a political candidate. A case at hand is Ronald Reagan's new opening to the Soviets. No sooner done, by his Jan. 16 speech, and now reinforced by the State of the Union address, than it is written off in sophis-ticated quarters as a mere campaign antidote to public fears that Ronald Reagan cannot be relied on to keep America out of war.

Well, as James Thurber said, you might just as well fall flat on your face as lean too far over backward. So, accepting the risk of the former, I would assert that the current Reagan outreach to the "evil empire," while convenient for his re-election effort, was designed to serve purposes of far greater importance.

It was, to begin with, a State Department special, cooked up by professional diplomats and experts on Soviet affairs, and originally timed for delivery to coincide with the Soviet Central Committee meeting late last month. It constituted a genuine effort to deal with what the professionals perceived as a danger-ous deterioration in U.S.-Soviet relations.

The new tack was to be an insurance policy against critical miscalculation. Nobody had confidence that breakthroughs of substance would result. But it ought not to be discount-

ed as campaign oratory on that account.

According to an official intimately involved, this was the rationale. A combination of white-hot Reagan rhetoric, the shooting down of KAL 007, a sense of disorganization

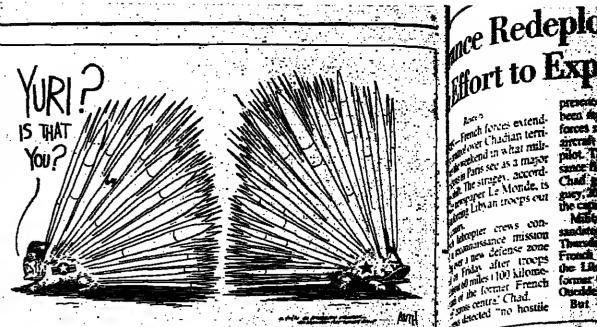

WASHINGTON — You can be held up to public ridicule for taking on faith intermediate-range nuclear missiles in Europe had brought the Washington-Moscow rela-tionship to a perilous pass. It was urgent to reinstitute "dialogue," if only because the absence of it carried unacceptable risks.

Not the least of the purposes was to find out if the suspected disarray in the Moscow leadership — given the disappearance from public view of the ailing Yuri Andropov left the Kremlin still capable of organizing a response. In that sense, Mr. Andropov's faint-ly reasonable written rejoinder last Tuesday can be read as a positive, if wholly inconclusive, early return on Mr. Reagan's initiative.

That rejoinder falls well short of the evidence the State Department's top people are looking for that the Soviet high command is in a position—never mind a disposition—to pick up on even the most modest measures to restore a safer state of relations. "We're still not sure what's at the other end of that telephone," says one authority. "There may be nobody who can deal."

This uncertainty was an element in the decision to probe. If the struggle for succession to Mr. Andropov is as intense as some experts think it is — and may have been for the past six months or longer — then some ment is seen in offering to "whatever more rational group there may be in the Kremlin something to grab hold of," an expert says. It is also important to know what Mr.

Reagan's new emphasis on accommodation

tal beliefs about the Soviet Union, no less hostile, no less persuaded of the need to do business only from a position of strength. So you cannot preclude a return to high-pitched rhetoric if the Soviets are foolish enough to take upon themselves the onus of being blatantly "anti-peace." The somewhat muted Andropov answer suggests that they are not.
What the new approach to Moscow means

is that Ronald Reagan has revised his calcula-tion of relative U.S.-Soviet strength. The president now believes that his increases in the military budget - even though those increases are largely untranslated into substannally increased weapons deployment — and the American economic resurgence have but-tressed the country's bargaining position enough to make some conciliation safe.

"The United States is safer, stronger and more secure in 1984 than before," the presi-

dent said in his State of the Union report We can now move with confidence to seize

we can now move wan commence to serze
the opportunities for peace."

That, too, is a wonderfully convenient conclusion to have reached at the beginning of a
presidential carapaign. But it also happens to
be a conclusion shared by State Department
policymakers, including professionals not
known for their softheadedness.

And that is precisely the point. And that is precisely the point.

The importance of the new look in the

Reagan approach to the Soviets is all too easily missed if no attention is paid to its origins. Unless you believe that a president can whistle up policies from the hurameracies that best fit his political purposes, which no president can then you have to be open to the belief that what we are witnessing is a welcome confluence of national security and domestic political imperatives.

The Washington Post.

Watching as Reagan Prepared a One-Man Spectacular Again

'It Would Be Stunning Indeed If He Should Decline to Run' and military spending is not to be

WASHINGTON — After President Reagan's shrewd and sentimental speech to Congress, it would be stunning indeed if he should de-cline to run for a second term. Any State of the Union Message is to a degree political: his this year was a masterpiece of telling the public what he wants it to hear.

Once again Mr. Reagan showed that he is a great speaker; more important, he demonstrated his mastery of all the chords that tend to make American hearts thump and thrill. And the themes be sounded will be haunting the Democrats from now until November — not least the slo-gan "America is back."

From what? From "a long decline that had drained this nation's spirit," to a "new beginning." So skillfully did Mr. Reagan develop this motif that be did not even need to tell anyone what came under the Democrats and what had been brought by his own administration.

This president never forgets the football-fan desire of so many Americans to be "number one." — or at least to be told they are number one. But this time he surpassed himself in the fulsomeness of his tributes to American greatness. No one should believe that this aspect of his speech was mere political flattery; rather it is so effective probably because Mr. Reagan really believes it, as do most of the millions who heard him.

He also managed, perhaps less sincerely, the remarkable feat of launching a new campaign against government ("still spending too large a percentage of the total economy"), although now be is the government at least its executive bead.

N EW YORK — If I were an alcoholic, I would go before

the nearest A.A. meeting and say.

"My name is Kurt Vonnegut. I am an alcoholic." God willing, that might be my first step down the long, hard road back to sobriety.

The A.A. scheme, which requires

a confession like that, is the first to

have any measurable success in dealing with the tendency of some human beings, perhaps 10 percent of any population sample anyone

might care to choose, to become

addicted to substances that give them brief spasms of pleasure but in the long term transmute their lives and the lives of those around

The A.A. scheme, which, again,

can work only if the addicts regu-

larly admit that this or that chemi-

cal is poisonous to them, is now

proving its effectiveness with com-

pulsive gamblers, who produce

chemicals that elate them whenever

they place a bet on simply anything.
If I were a compulsive gambler, I

would be well advised to stand up

before the nearest meeting of Gam-biers Anonymous and declare. "My name is Kurt Vonnegut. I am a

that has been ruining their lives.

my last shred of self-respect.

compulsive gambler."

them into ultimate ghastliness.

By Tom Wicker

He returned to his familiar appeal to "family values," offered a manned space station with no mention of its cost, and declared, to the applause of those who could forget Nicaragua, Governments that rest on the consent of the governed do not make war on their neighbors."

As the president in office during most of the recession brought on by the Federal Reserve's tight-money policy, Mr. Reagan was endtled to take credit for the resulting decline in inflation, and be did so with zeal. He stoutly resisted new taxes in an election year, and put his font wrong only once — drawing laughter from the Democrats when be said his tax reform plans would not be ready until

the month after voters go to the polls. Mr. Reagan had his greatest diffi-culty in discussing the \$180-to-\$200billion yearly deficits that stretch away into the future - primarily caused, as even the chairman of his Council of Economic Advisers has testified, by the rising military budget, the Reagan tax cut and the consequent increase in interest costs. In the teeth of these facts, well

known to Congress, even Mr. Rea-gan's oratorical gifts could not make it less than incongruous that be proposed once again a constitutional amendment to force a balanced budget. But, as usual, this astute politician was not really talking to Congress; be was talking over its head to the voters, who may not be inclined to consider the deficit more important than the recovering economy. Still, if taxes are not to be raised

reduced, what is to be done about deficits that won't go away and soon-Mr. Reagan created the impression that other spending could be cut; but every discretionary budget item, the FBI as well as welfare, could be climinated and the deficits would not be much reduced -a fact that Mr. Reagan did not tell the viewers.

In 1984, be did assure them, America is "safer, stronger and more se-cure" than when he took office. This claim apparently derives from the enormous military budgets he has authorized, since he has otherwise brought relations with the Soviet Union to the most bostile point since 1962. His deployment of medium-range missiles in Europe has had the twin effects of making the Russians feel more threatened and causing them to deploy their own mediumrange missiles off the U.S. coasts.

A New York Times-CBS News Poll found 49 percent of respondents favoring withdrawal of the marines from Lebanon, 58 percent so re-sponded to a Washington Post-ABC poll. To these doubters Mr. Reagan declared, without a shred of evidence, that "we are making progress" toward the distant — some think im-possible — goal of "a free, indepen-

dent and sovereign Lebanon."
But he quickly and shrewdly moved on to a more promising appeal to American pride: "We must not be driven from our objectives in Lebanon by state-sponsored terrorism." Give President Reagan credit -he knows how to make lemonade out of his own lemons.

the levers of power, I think.
And then what?

Reagan Is the Best Show on Television

TF THE Democrats had doubts about the combined powers of the presidency, Hollywood and television, Ronald Reagan must have brought them totheir senses by his State of the Union performance on Wednesday. Give him a good script, a few invisible television screens and half an hour on prime time,

and he'll convince the people they have nothing to fear but the facts.

Walter Mondale and John Glenn can complain, but the president of the United States can always act. If be thinks going to China is good politics, while, Mr. Mondale and Mr. Glenn are mushing through the snow in Iowa or New Hampshire, he will go to China and come back through Israel, Italy and Ireland if he likes. If the crisis with Moscow seems to be getting out of hand, he can always set up a commission of U.S. Soviet philosophers to define an agenda for some vague future dialogue with Yuri Andropov. And if the pressure to get the marines ont of Lebanon gets too strong, he can always, move them around — or even bring them home during the Democratic nominating convention in San Francisco. In short, Ronald Reagan is in the driver's seat. He may not have a road map, but he knows his destination upstairs above the store" at 1600 Pennsylvania Avenue.

The people seem to love it. It's the best show on television. Never mind the deficit, or who will appoint a majority of the members of the Supreme Court of, the United States in the next five years. For now, the president is telling the people what they want to bear, and he assumes, probably rightly, that maybe they'll put off thinking about the consequences till later.

- - James Reston in The New York Times.

The Temptation of a Well-Earned Rest

RESIDENT Reagan will be 73 in two weeks. The question has been I whether he is willing to gamble a comfortable California retirement for four long years in Washington. I would not be so sure: A second term is not a reward for past services. The world continues to revolve; problems can multiply rather than evaporate. Some time after Dwight Eisenhower's triumphant re-election in 1956 he wrote to a friend, "Since July ... f cannot remember a day that has not brought its major or minor crisis." A weary tone pervades his account of the years of Little Rock, Sputnik,

Lebanon, the death of John Foster Dulles and the U-2 fiasco. Mr. Reagan can look back on his administration with no small measure of satisfaction. The future, however, is uncertain. The Republicans may be the from the natural cycle of pobtical change. If Mr. Reagan should run again and win, be will be hostage to the limits of his tenure. The congressional long knives will be sharpened. The crown princes of his own party will be preening

and backbiting while Mr. Reagan struggles to maintain the succession.

It is regarded as a virtue in politics to know when to go. Staying on can be as? onerous for the incumbent as it might be for the country, particularly when the alternative is a well-earned rest, full of age and honors. Why go out with a whimper when you can go out with a bang?

- P.H. Terzian, an assistant editor of the Los Angeles Times op-ed page.

When an Old Man Talks Like This ...

R ONALD Reagan will not succeed himself as president of the United States come January, says a buddy of mine named Wilford who has a knack of divining, sometimes without much evidence, what will be and what, will not be. To start with, Wilford saw a 70-30 chance that the president would announce that he would neither seek nor accept the nomination.

The signs, Wilford said, were bung throughout Mr. Reagan's long, gossamer-State of the Union speech. The reference to "the leadership of Vice President" Bush" was one of the subtle signs, Wilford said. The tone and texture of Mr., Reagan's f-brought-America-back-standing-tall-with-courage-confidence-and-hope speech had a scent of resignation. "When an old man talks like this," his mind is on his gold watch." Wilford said.

"He's rewarded his rich friends; he's reversed black gains; the military's rolling in the dough There's nothing a bard of him but the deficience.

rolling in the dough. There's nothing ahead of him but the deficits, unemployment and Andropov's successor, so be's clearing out," Wilford said. "His speech put a bright face on the ocean swells, but he knows the typhoon is just ahead. Besides, how many more of those speeches can be read before even the media catch on to the reality that he is not a great communicator, but rather a, great speech reader?" I told Wilford that I would record his prediction, and 3 promised that should he prove right I will reveal his name.

LETTERS TO THE EDITOR

- Les Payne in Newsday (Melville, New York).

Recalling Malcolm Kerr

Very few among American intel-lectuals have understood our Middle East dilemma as well as the late Malcolm Kerr. As a Palestinian-Leba-nese student of Mr. Kerr, I often disagreed with his views and harsh conclusions. But be was always willing to listen and provoke discussion when many others failed to do so. Malcolm Kerr was neither pro-Arab nor pro-others. He was a free thinker, a resourceful intellectual. While some were absorbed with their

biases, Mr. Kerr was always ready to see the other side of the coin. FOWZI E. FARAH.

Up From the Depths

It is with sorrow that I emerge from the depths of the Atlantic, to which you have assigned all the good residents of Portugal. How could you do that to such a modest, hardworking people? I must protest the map in your Dec. 30 editions that places

rope, bordering on the Atlantic. THEODOR H. UNTERMAN: Cascuis, Portugal. Crime in Saudi Arabia

Although informative and generally correct, David Lamb's report Saudis Credit Islamic Law With Keeping Crime Rate Down" (IHT, Jan. 12) lets stand unchallenged the critics' explanation that crime is low

in Saudi Arabia because Saudis are rich and no one is poor. In fact, Sandi society has only just beginn the battle against widespread poverty. The material wealth of a visible few.

is greatly overshadowed by shabby homes, lack of clean water and electricity and the illiteracy of the majority. Yet the kingdom's rulets have made great efforts to overcome this poverty and may transform Sandi

Arabis into a largely middle-class so-ciety by the end of this decade.

In light of this, I look back upon, the West and wonder. Neither our general material wealth nor the particular affluence of individuals seems to make any great difference as to the propensity to commit crime. If this is the case, then the perception of what is criminal and the formation of society must be quite different in the West and in Saudi Arabia.

The move brings French soldiers to the forward defense line established by the government forces of President Hissène Habré 120 miles south of the main rebel bases at Fada and Faya-Largeau.

The military analysts said the 3,000-member French force supporting the government troops of Mr. Habre was in range of direct contact with the rebels.

They said the new security line could be reached by Libyan fight-ers hased in southern Libya and in the contested Aouzou strip.
The only serious battle in Chad since French troops arrived last August to support the Habre gov-ernment took place at Oum Cha-louha, within the new defense zone,

To counter the increased risk of moving closer to enemy territory, France bas increased its air strength in Ndjamena with more Mirage jet fighters, Jaguars and Breguet-Atlantic reconnaissance planes, military sources said.

in September. In that battle, a rebel

column clashed with Mr. Habre's

They said the latest arrivals would more than triple French air power and allow long range mis-sions. A Defense Ministry spokesman refused to comment.

France dispatched troops to help the government forces halt a rebel drive southward in August. Hostilities ended with a military stalemate that failed to produce a diplomatic solution and effectively partitioned the country.

Although Libya has consistently

denied having troops in Chad, France said it believed Libya was to blame for last week's incidents. Le Monde said French reconnaissance of Torodoum, a rebel

fall-back position north of Ziguey and lying within the new defense zone, showed beavy armaments that could not bave been deployed without major support from Libya. It said the Libyan Army was well-supplied with the Soviet-made weapons sighted at the Torodoum

Rebel Warns of Reprisals A spokesman for the rebels in Chad warned Saturday that

BAD TIMES — The headquarters of The Times and Sunday Times in London were deserted over the weekend after a walkout by clerical staff Thursday. The government arbitration service intervened Sunday to arrange talks between a staff union and management but said neither side had agreed to meet with the service.

Nonaligned Draft Urges U.S. to Stay in UNESCO

direct condemnation of the United States for its planned withdrawal from the United Nations agency, a conference spokesman said Sun-

A drafting committee representing the 68 countries at the meeting in Jakarta approved Sunday a mo-tion on UNESCO, the United Na-tions Educational, Scientific and Cultural Organization, to be pro-posed at Monday's final session, he

The motion will mention the need for universal membership in UN groups but will not refer to the announced intention of the United States to pull out by 1985.

The resolution is not based on confrontation," the spokesman said. "That's why we'll utilize uni-

versality."

Members such as Cuba and Nio-aragua wanted a strong condemna-

tion of Washington. But the midst of a visorous counterstrack JAKARTA — Officials at the spokesman's remarks apparently against critics of deployment Nonaligned Information Ministers indicated that countries favoring a Conference will be asked to reaf- softer line, including Indonesia, In- land Yard to trace the "mole," on firm support for UNESCO without dia, Yugoslavia and Egypt, had

The U.S. government last month formally announced its intention to withdraw from UNESCO, saying it was becoming too politicized, had mismanaged its hudget and was trying to restrict press freedom.

A UNESCO spokesman, Dileep Padgaonkar, strongly defended the organization Sunday, saying it had taught 15 million people in poor countries to read and write and trained 15,000 teachers. It had repeatedly expressed a commitment to press freedom and pluralism in the media, Mr. Padgaonkar said.

During three days of full sessions, delegates were virtually unanimous in complaining that world news was dominated by news organizations that looked at developing countries through Western

By Keith Richburg

LONDON — Until recently, Sa-

LONDON — Until recently, Sarah Caroline Tisdall was a promising 23-year-old on the the first rung of a British diplomatic career. Now she is going on trial and faces the prospect of a two-year prison term. The allegation: leaking a government memo to a British newspaper.

Miss Tisdall's case has brought a

long-simmering dispute to a head. At issue are the rights of journalists

and their need to protect sources in a nation that has no American-

style freedom of information law,

but does have an Official Secrets

Last October, The Guardian

newspaper received in the mail a

photocopy of a classified memo-randum from Defense Secretary Michael Heseltine to Prime Minis-

ter Margaret Thatcher. It gave the date for the arrival of U.S. cruise

missiles in Britain, and explained Mr. Heseltine's plans for handling

the expected negative publicity

from protesters, who were already

The newspaper printed a story giving the planned date for the missiles' arrival as Nov. 1. It later

printed the full text of the memo.

The government lawyers and the

judges in the case were later to

agree that its contents in no way

endangered security, but the leak

was embarrassing politically. Emo-tions were running high, and Mrs. Thatcher's government was in the

planning demonstrations.

curity risk. Detectives soon identified Miss Tisdall but only after Guardian editors, obeying a court order, returned the photocopy to the gov-

The decision to return the document caused despair among jour-nalists and press advocates, who have already seen the principle of confidential sources whittled away

by a series of recent court cases. It also illustrates the stringent restraints that bind journalists in Britain, where even receiving leaked documents is a crime and where reporters are regularly prosecuted for practices considered commonplace by their American counterparts - such as interviewing

jurors after a trial. British journalists have no rights similar to those protected under the First Amendment in the United States to counter a court's contempt citation. There is no Free-dom of Information Act by which a newspaper can obtain documents lawfully. Even the right to protect sources appears to have been thrown out with the Tisdall case.

This is not to say that British newspapers do not have access to classified information. Journalists are routinely given top-secret information under the "lobby system," whereby top officials brief journalists, and provide them with documents, on condition that no names appear in print.

Some journalists and civic groups have launched an intensive lobbying campaign for more openness in government. The campaign has been given new impetus this year with the support of the three opposition leaders, Neil Kinnock of the Labor Party, David Steel of the Liberal Party and David Owen of the Social Democratic Party.

They are pushing for a freedom of information law, repeal of the Official Secrets Act, a new law that would allow accused "whistleblowers," people in government who leak classified information, to claim in their defense that the public had a right to see the documents or that the leak was in the public

"You can leak something that saves the country and you can still be found guilty," said a campaign spokesman. "The disclosure itself is a crime. You can't defend it on the grounds that you did it in the public interest."

A 1981 contempt of court act was supposed to protect journalists

from revealing their sources but the udges in this case ruled that national security concerns take priori-ty over confidentiality.

timed at civil servants who leak information to reporters.

A government-appointed com-mission decided in 1972 that the Official Secrets Act, or specifically the catch-all section dealing with classified information, was "enor-Secrets Act, which was approved in 1911 — after a half-hour debate — successive Labor governments in net German spies during World promised to modify the act, but no War I. Lately the act has been action was ever taken.

Julian Fellowes, a London-schooled dramatic actor who also works for Walt Disney Productions thus indicating his wide range of experience in fantasy, made his first visit to Palm Beach recently.

M STRAIGHT BOY

Fellowes observed the meticulous maintenance of private and public greens, the unwrinkled linens wrapping the inhabitants and declared, "This is the only place in the United States that is completed. All other American cities, and the people in them, appear to be under con-

While the observation wasn't accurate in fact, it was accurate in feeling. Palm Beach is rigidly near. Mansions, no matter how large, are regularly painted and roofed,

hedges are trimmed to a specific height by local law, nobody goes shoeless or shirtless on the public streets even if they are bicycling to the beach

Palm Beach is an island. This statement is often challenged by visitors who insist on getting their geography right. The Island 14 miles long and one half mile wide at it's fullest point, dead ends on the North and the Palm Beach inlet separating it from another community, "Singer Island," To the South it is connected by a series of bridges along route A1A, to other resort spots along Florida's Atlantic coastline.

Flagler never saw Palm Beach until a few years after he had completed the Ponce de Leon Hotel in St. Augustine, Florida,

built at a cost of about \$2 million. In 1893 when Flagler's railroad was being pushed southward, Flagler decided to "create the real paradise of his heart, Palm Beach," according to one of his biographers. He bought his land from another legendary American Industrialist, Robert R. McCormick of International Harvester, who settled in Palm Beach in the late 1870's. This purchase started a boom that raised prices of land once considered "swampland" as high as \$1,000 an acre. Today an acre would go for at least one

When Royal Poinciana Hotel opened, Flagler's railroad had been completed to West Palm Beach, but the work was not (Continued on Page 8, Col. 1)

million dollars.

PALM BEACH — A new wave of European emigration is ed sophistication to its banking services. Customers can buy a headed for America, But the dozen foreign currencies at any westward pioneers of 1984 differ of the bank's branches at a moment's notice. And to facilitate overseas fund transfers First Na-

> President Thomas M. Keresey. But not any longer. Although

modern, state-of-the-art banking

already is in place in many of the

world's financial capitals, it has ar-

rived in Palm Beach County rather

recently - but in a very big way.

To be sure. Europeans don't

flock to Palm Beach because of its

banking facilities. They come to

Palm Beach and create the need

for these services. But why Palm

"In the last few years this area

has held a tremendous attraction

for Europeans," according to

Keresey. "They are products of

the new industrial wealth that has

developed in Western Europe in

the last decade. And they come

here for a variety of reasons.

Diversification of assets is not

their only objective," he con-

tinues, "a European wants to raise

their children here and give them

an American education. Then

they want to take them back to

their homeland in the summer."

Keresey, "they are seeking what

they feel is one of the last havens

of safety in the world. A lot of the

feeling among many of the Euro-

peans coming here is that the

NATO alliance is not the be all

and end all it's supposed to be.

(Continued on Page 9, Col. 5)

"But more than that," adds

Beach County?

preceded them across the Atlantic. As one German industrialist who has moved his family to this island community notes, "We are the second phase of an immigration that began with our grandparents. The difference is, we are coming with wealth, not with one broken down suitcase. And we're not arriving through Ellis Island," he adds. "We're coming through Miami International Airport."

For the most part, after landing in Miami, these Europeans head 70 miles north and settle in Palm Beach County, an area whose population has doubled in the past decade, due in no small part

to the influx of foreigners. Growth of this magnitude has forced sweeping changes. Once a winter haven for cold-weatherweary and wealthy Americans, Palm Beach has become a vibrant international community. And perhaps no other fierce rivalry industry more aptly reflects the transformation then banking.

Just six years ago, First National Rank of Palm Beach had only two branches, both located on the island of Palm Beach. Today it has eight branches, five of them on the mainland in Palm Beach County, where developers have carved communities out of what once was swamp and scrub.

The town of Palm Beach has always been the scene of fierce banking rivalry because of its extraordinarily affluent citizenry, but growth and the influx of new residents has now made this a county-wide phenomenon. Dozens of financial institutions have moved here in pursuit of new concentrations of wealth. In 1979, for instance, there were 92 bank branches in the county. Today there are 164.

But more than just opening new branches, first National has add-

Martha: "First Lady of Fashion"

M artha came to Palm Beach in the early 30's, took one look at the place and decided to open a fashion salon "Because, to me it was the most exciting place in the world. And you know, I'd been to Monte Carlo and all over the world," she said in a recent interview in Palm Beach.

"I was very impressed with Palm Beach," she added. "The surroundings were gorgeous and everybody was here to look beautiful and have a wonderful time. It was grandeur, it really

After opening in 1945 on Worth Avenue, up the street from the exclusive Everglades Club, Martha proceeded to change Palm Beach's fashion image and turned it into a winter resort where women dressed during the daytime as well as in the evening. "I really changed the tune," she said, "When I first came to Palm Beach, nobody bought any clothes really. They were no col-or, only black and brown. After February, everybody disap-

Martha introduced pastels, elegant Liberty lawn dresses with sable or ermine-lined shocking pink sweaters for evening and brought high fashion designers in person to Palm Beach. "I feel very responsible for the glamour I brought to Palm Beach," she said. Today, her name is magic in the

fashion industry and Martha is a class act all to herself. Whether she is advising clients (never dare call them customers) on what to wear and what not to wear, having a pleasant chat with old friend, French cosmetics queen Lilly Dache, covering international collections from Rome to Paris to New York or simply supervising the stock backstage, Martha is everywhere and sees everything. lewelled to death, wearing an emerald the size of a champagne

record for being first in recogniz-ing the quality of world designers is rare. Her courage, conviction and unerring instinct have proved her right and have made her millions in a world where so many waver and hesitate. One after another, she discovered and brought to America Valentino, Mila Schon, Andre Laug, Laura Biagiotti and David and Elisabeth Emanuel (who designed Princess Diana's wedding dress and trousseau.) The flamboyant London designer Zandra Rhodes recently recalled that "Only Martha would believe in a designer with orange hair." Grateful designers have heaped

praise on Martha, who has been something like their Godmother. At a recent black-tie dinner, at which she celebrated 50 years of career, Martha invited all her favorite designers, including Bill Blass who got up and called her "Our own First Lady of Fashion," adding that To the world of fashion, Martha has meant courage - her spirit, instincts and sound fashion sense have all been (Continued on Page 8, Col. 8)

Experience A PALM BEACH TRADITION.

THE BREAKERS (Continued from Page 7)

quite finished, continuing on hotels was the Beach Club, a through another season. gambling resort run by Col. Ed-The hotel quickly became the ward R. Bradley, supposedly with the approval of Flagler. Colonel gathering place for "wealth, ashion and society." Prices rang-Bradley became so closely ed as high as \$100 a day associated with the early life of Palm Beach that many have pro

American plan per couple. Guests dressed very conservatively. Ladies wore dark skirts and white blouses with leg-of-mutton sleeves. The men wore light trousers or knickers, dark coats. stiff collars and caps. Colf was the popular sports among the visitors. Tourist life in Palm Beach was based around bathing, sailing, fishin, and bicycling. Teas, balls, dinners, concerts and cakewalks were indoor diversions. A trolly car drawn by a donkey carried guests and luggage from the Royal Poinciana and the Breakers, Flagler's second hotel here, to the beach. Flagler also built a bridge and track over Lake Worth from West Palm Beach to his Palm Beach hotels, where guests literally step-

ped out onto a red carpet. When it was built, the Royal Poinciana was the largest hotel in the world, although it had cost only about half as much as Flagler's Ponce de Leon in St. Augustine. It had 540 bedrooms, a dining hall that seated 1,600 and miles of hallways. An early account notes "those who had been going to the Riviera were ripe for a change and came to Palm Beach

Closely associated with the opening of the two Palm Beach

Lawyers make up to 40% of the working population for the same reason. Wills and trust are constantly being revised.

What is the Palm Beacher's daily routine? It's athletics in the morning with golf, tennis or croquet at the Breakers hotel or at one of the private clubs. Then lunch on Worth Avenue or at Testa's or Too-Jays, very informally.

Shopping is light during the late afternoon hours because everyone is home taking restorative measures before cocktail time. Then on to a charity ball (there are an average of two a week in the height of the season and tickets average about \$150 each). On non-charity nights it is possible to dine in at least a dozen top quality restaurants in the area or attend the Poinciana Playhouse where first quality Broadway shows do two week runs from January through March. Tuesday evening is "art gallery night when most new collections

In between there are trios to Miami to go to the races at Hialeah or Gulfstream park. Most Palm Beachers make the 70 mile trip to the Miami race tracks on Saturday when the best horses are funning.

Property prices in Palm Beach are constantly lifting skyward. Figuratively and literally, privare homes range in price from \$350,000 (for a modest two bedroom cement block house on a small lot) to the recent sale of the Marjorie Merriweather Post estate which fetched a reported 14 million dollars for its 17 acres and 118 rooms.

These prices sends many shoppers into the condominium market. It is still possible to buy a spacious high-rise apartment with that magic 33480 zip code for \$150,000. The location determines the price. The new Breaker's Row II condominiums, on the Breakers hotel property, will sell from \$850,000 to 1.9 million but this is the top address

in town. Europeans have invested riously here. The Robert De Balkanys bought Eugenie Marron's house, near Sloan's curve and got an instant mansion. Susan and Youka Troubetskoy bought a more modest house on with antique furniture.

Maria Pia de Savoia and Michel

de Bourbon Parma bought on the lake near Marylee and Douglas Fairbanks, Jr., Alejo Vidal Quadras, the portrait painter who spends most of the year in Paris, became a Palm Beacher when he bought a sunny house on Ridgeview Avenue and paints there, maintaining the discipline that has made it possible to afford a home in the sub-tropics.

No matter what goes on in Palm Beach, it all comes together at the 568 room Breakers hotel

Today the Breakers is the focal point of all activity for both the tourists and the established winter colony. Business seminars and lavish charity balls are held there. It is impossible to function in Palm Beach without two or three meals per week at the

When Palm Beachers move into apartments, the Breakers becomes the guest house. All guests are sent there if not to the Colony or the Brazilian Court hotels, smaller European flavored establishments, both close to Worth Avenue.

Rates at the Breaker's range from \$185 to \$275 for a double room at the top of the season, December through April. This includes Breakfast and Dinner.

Dining in Palm Beach

n the old Palm Beach tradition, millionaires travelled with their staff, including chefs and butlers. They are either at home or at their club, the most famous being the Everglades, the Bath and Tennis, the Seminole Golf Club and the Palm Beach Country Club.

However, in the last ten years, with the growth of the area and the arrival of newcomers without dub affiliations. Palm Beach has been acquiring restaurants with a European flavor. Here are some of the landmarks which attract die hard Palm Beachers as well. TESTAS - 221 Poinciana Way.

POPULATION: 10,000 the year around.

35,000 in season. SEASON: The Season stretches from Thanksgiving to Easter. However, Palm Beach, which used to shut tight in the sum-

mer, is getting to be more of a

year-around town. Most hotels and restaurants stay open all year, as do shops on Worth WEATHER: Sunshine prevails about 70% of the year. Rainfall averages about 2.1 inches from November to May and 7.98

inches from June to October. Temperature ranges from a high

of 83 degrees to a low of 66 LIFESTYLE Casual, except at the height of

the Season. TRANSPORTATION: There is an international air-port in West Palm Beach.

Shopping in Palm Beach

P alm Beach is a mecca for those shopping for a rich spouse and those just shopping. The latter find the selection, varieand quality - more extensive than the former could ever hope. The island's immense snob ap-

peal is a magnet for the monied which, in turn, attracts an elite merchant. Worth Avenue, a milelong, ocean-to-lake shrine to conspicuous consumption, boasts the likes of Hermes, Gucci, Louis Vuitton, Martha, Sara Fredericks, Van Cleef and Arpels, Cartier, and Mark Cross

There also are smaller, proprietary establishments, some owned by honest-to-god celebrities. Beauty queen D. Kylene Barker, then Miss Virginia, told judges at the 1978 Miss America pageant that her life's dream was "to open a boutique on Worth Avenue in Palm Beach." She won the title and opened

her boutique, D. Kylene, which she owns with her husband, photographer James Brandon. In addition to a D. Kylene, there also is an actual Sara Fredericks, who has given new meaning to the term "living over the store." There really is a Martha. She's Mantha Phillips, who, with her daughter Lynn Manulis, reigns as the arbiter of Palm Beach haute couture. The living, breathing Aldo Gucci has made Palm Beach

There is no doubt that the inventory of the avenue's stores is a reflection of the community they serve. There are at least 11 jewelry stores. There are nine real estate houses - and a million

The avenue has had a celebrated and colorful clientele. The Duchess of Windsor was a familiar sight, strolling down the avenue with three small dogs on a leash. (Shopping with one's dogs has always been a terribly chic thing to do. The avenue even provides a blue-tiled, carved

stone fountain for the canines, and, lest there be any confusion, on it is carved the word "Dog Bar.") Prince Bernhardt of Tho Netherlands shopped here. So did Alia, the second wife of Jordan's King Hussein

"If you have to ask how much it is, you can't afford it," the old dage goes. But you can ask Donald Bruce, owner of the store which bears his name. "Well, we're not terribly expensive," he says. "We have a beautiful malachite and gold necklace for \$1,800 and a handmade croquet set for \$1,200. When you think about the quality, that's considered a bargain." He continues, we have Malossol beluga cavial at \$400 for 500 grams. It's one of

our most popular items." A representative of Van Cleef & Arpel says, "The most expensive item in our Palm Beach store right now is only \$125,000." But that, he adds, is because the company's Palm Beach customers lead a more casual existence. "In our New York store, for instance," he says, "our most expensive item would run two, two-and-a-half

Peggy Rao, a spokesman for Aldo Gucci, said the Palm Beach store's top of the line would "probably be our lizard duffel bag." The price? A cool three grand,

Another one who is hitting the Palm Beach market at just the right time is Oscar D'Argent a 50-year old snakeskin firm from Ecuador. The family was in both the wood and reptile business but, "Since 1975, we've concentrated on reptiles which is now the latest fad," said Oscar Gilman, who is the designer of bags and belts as well as the owner of the firm, "We have special colors that no one else does, such as orange, hot pink, turquoise," he said, "But right now, pastels are favorites."

"All the skins are from nonendangered species from South America and enter the United

the U.S. Fish and Wildlife Department." he also said. His wife, Olga Gilman, who serves as his U.S. representative

as well as Ecuador's consul for the state of Florida, said Oscar D'Argent, which was introduced in the United States only a year ago, has sold almost \$1 million of merchandise, mainly through department stores and specia stores, including 5aks Fifth Avenue, Bergdorf Goodman, Elizabeth Arden and Dana Cote d'Azur.

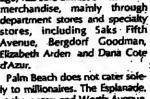

home to Cartier and Mark Cross.

North County Road, which edges out of the strictly commercial and more into the residential area, is Palm Beach's decorators' and antique row. Shoppers stroll the street in search of rare books, antique clothing, Chinese porcelains (the hottest item in the cut-throat Palm Beach antiques circle) and a new living room,

SHARON DONNELLY

Black and white linen suit by Carolina Herrera.

ly to millionaires. The Esplanade, at the ocean and Worth Avenue, are state-of-the-art shopping areas, ("Mall" is a four-letter word in Palm Beach.) A gift shop called Melangerie has items that start at \$8. But, lest one thinks it is nothing more than a high-brow flea market the Esplanade also is

Some fifteen languages are spoken at The Esplanade. If a European tourist discovers that a salesgirl doesn't understand, she will summon someone from unstairs, downstairs, or next door who will. A doorman in full livery carries packages to valet-parked cars or awaiting limousines which are in no short supply in Palm Beach.

The Main Street newsstand, at Royal Poinciana Way and the North Bridge, carries everything from out-of-town (and out-ofcountry) newspapers to X-rated magazines. · · ·

BOOK SEPTE

for the use

Charity, Sweet, Charity

by HELEN BERNSTEIN

C harity didn't begin at home - it began in Palm Beach. It's the cog that turns the social wheels. Besides, it gives people somewhere to go at night.
Palm Beach is the place to go

after you've made it big somewhere else. It's where you let your money hang out in om-built houses, cars, yachts and planes. For there's no point in having millions if no one knows about it. Here money talks - fast. moves in, his mailbox is flooded with invitations to luncheons, cocktail parties and balls. If he wants to join the party, all he has to do is buy tables at the various benefits - at a cost of \$1,500 per

The really prestigious balls are the Red Cross, Cancer, Heart, Norton Gallery of Art and lately Polo. The Planned Parenthood Dinner Dance is in a class all by itself. It's by invitation only and its chairman, Mariorie Meek, is adamant about spending as little as possible on music and decorations, thereby keeping most of the money for the charity - which is, after all, what charity is all

Charity is the common denominator which takes a plain woman from nowhere and tums her into a Queen of the Breakers Hotel Ballroom. All she has to do s give up several months of her life and a considerable hunk of her husband's fortune.

In terms of charities, medical research is number one, followed by education. The arts are impor-- symphony, opera, and ballet have their share of devoted givers – while animals are a close second to the arts.

Polo at Wellington Polo and Country Chib

International banking services

(Continued from Page 7) The feeling is that if the Russia Bear wanted to have lunch in Hamburg he would. And if that happens," suggests Keresey with a dry smile, "they can only hope that, if they have assets in the United States, they just might be plane out of Germany."

Regardless of the motivation, growth has done wonders for the county -- not to mention Keresey's bank, which has picked up "several millions of doflars in deposits" as a result.

Part of the county's population increase is made up of the wealthy retired or semi-retired the same type of resident which has always predominated in the town of Palm Beach, But the town has all but reached its growth limits, creating a need for "New Palm Beaches," communities that are being developed on the County's mainland.

The Europeans have been told that Florida is the best place to go in America," Keresey points out. For one thing, there is no state income tax. But others are moving here for different reasons. A new and younger professional class has arrived to work in the high-tech industries that have sprung up here. Still others have come to fill the growing need for stockbrokers, real estate agents and lawyers," says Keresey. Heading South all this activity

has drawn some tough competi-

tion. Thanks to a Florida law that companies to operate investment advisory facilities and fulfychartered trust companies in the state, there are some two dozen new players on the banking scene here. They include financial owerhouses such as Chase Manhattan, Morgan Guaranty, First National Bank of Boston, Bankers Trust, Mellon Bank, Chemical Bank and Hamis Trust. "A lot of these banks have followed their northern clients south," notes Keresey. "They

don't want to break a significant banking relationship that has been ongoing for 20 years just because someone retires and moves. And remember," he add-"many of these companies have foreign subsidiaries." Comition among banks here is like-

ly to increase. The University of Florida, in a recent study of population growth, anticipates that net migration to Florida will reach 250,000 annually through the year 2000. Fifteen percent of the newcomers are expected to move to Palm Beach County, which would swell the county's current population of 625,000 to more than 1 million by the end of

Even more significant than that, the university concludes that no more than 30 percent of the population will be over the age of 65. Researchers make no prediction on what portion of the

population will be foreign. Today foreign depositors ac-count for at least 10 percent of First National Bank of Palm Beach's customers. "And that is bound to grow," predicts Keresey. Ooes this mean Palm Beach is becoming Switzerland? Keresey and a lot of other bankers here would like to think so.

"You have a very high asset ownership per individual," notes Keresey. (Many Europeans settling here have invested in income property as well as residential property in Palm Beach County.) People who deposit money here are, in many cases, the same people who used to, or still do, deposit money in Swiss banks, They used to look to Switzerland for secrecy, security and availability of their funds. Now they have found that they can get the same thing here."

In addition to international transfer facilities. First National is one of several county based banks that deal in Krugerrands, Canadian Maple Leaf coins, gold and silver bars and loreign curren-

There's little doubt from all this that Palm Beach banking has gone big time. Banking standards here have escalated," says Keresey. At any rate, it's all a far cry from the good old days in Palm Beach, when the town's banks went into slow motion every year as soon as the tourist season ended in April.

Starting on May 1 in the old days," recalls Keresey, "the rule in the bank was that men didn't have to wear coats and ties. There was even an award given the president of the bank to the person wearing the most colorful sports shirt to work." Today, pinstripes are the order of the day year round.

"We, at First National, have made a firm commitment to provide our customers with excellent international financial services. In this way, we have made, and will continue to make, a major com-Inbution to the continuing growth and cosmopolitan nature of this community.

Opportunities in real estate abound

burgeoning in Palm Beach County as more and more people recognize it as an important and enjoyable place to do business in

This resort community-turned international business hub is attracting record numbers of new residents (more than 30,000 a year), creating a

ndous demand for new office and residential space. This new demand is being answered, and the skyline of West Palm Beach now is dotted with highrise office and condominium complexes. There has been a very big movement into Palm Beach in the last three to five years. First we saw growth in the housing market in the form of adult condominiums and retirement villages. But now growth is coming from all sides," said George Greenberg, owner of one of the

county's oldest businesses, Pioneer Co. The bulging population has brought much more than residential development to the area. It has brought with it surging demand for commercial office space, retail space, and dozens of new restaurants. "Much of this redevelopment of downtown Palm Beach and growth in Palm Beach County can be attributed to the large numbers of Europeans who are moving here," said Thomas Keresey, President of First National Bank of Palm Beach. "Many of the new European residents are buying property as investments above and beyond their residences. They can see that Palm Beach has a lot more to offer than sunshine."

Always a large contributor to the local economy, the resort industry has been a chief beneficiary of the European influence now being felt For instance, the Palm Beach Polo and Country Club now is consi by many enthusiasts to be the focal point of polo play in the United

Additionally, Palm Beach County boasts more golf courses (90) than any county in the nation. Four of them are located at the county's newest luxury resort, the 366-room PGA Sheraton Resort. Even though golf is the initial attraction, a complete sports complex, including 19 tennis courts, a health and fitness center, including six raquetball courts, a lap swimming pool, saunas and whirlpools and many other amenities. Luxury also abounds in the many new condominiums being built in the area. The Melbourne House typifies the elegance and gracious living that is characteristic of Palm Beach. This 25-unit condominium located in the heart of downtown offers luxury and the convenience of a downtown location.

With projects like these underway across the county, local leaders are bullish on the community's late.

"I think generally the growth is good for the community. The stately buildings add something to the skyline," said Greenberg. Highrise development also has meant somewhat more affordable real estate prices, although increasing demand is beginning to push them

For instance, at The Plaza, a condominium on the waterfront, two and three bedroom units can be bought for \$300,000 to \$500,000 while deluxe penthouse models sell for \$1,250,000. Off the waterfront, where much development is taking place, homes can be bought for con-

magine a ball hit so hard it is coming at you at a speed of 110 miles per hour. The ball is moving so fast you can hardly see it. Your job is to stay at a gallon, get your horse in line with this flash of white and either pass it ahead to a teammate or carry it down the field for an attempt at a

Things have come a long way since 1876 when the late James Gordon Bennett, jr. returned from England with a batch of polo mallets and introduced the sport to the United States. Just ten years later an international polo series between the United States

and England was begun, with the first matches being played at the Westchester Polo Club in

Newport, Rhode Island. Today, polo is the most popular spectator sport in the Palm Beaches with as many as 15,000 enthusiasts showing up for matches at the fashionable Palm Beach Polo and Country Club.

For years following their retirement from the game, there were only memories of Michael Phipps, Winston Guest, Stewart Inglehart and others trotting this way and that under blue Florida skies, but that is no longer the case. Laddie Sanford and the Whitneys are no

Croquet is back in Palm Beach

longer names one might hear bartered about the polo fields, but with the establishment of the Palm Beach Polo and Country Club, there appears every top rated polo player in the world. Hundreds of players from

around the world and across the country appear in Palm Beach every winter to compete in highgoal polo competition of the highest degree. Ten goal players are no longer a thing of the past in the United States. Every season the competition demands the best performances from the competitors, producing 10-goalers Tommy Wayman and Memo Gracida, the first American polo players to be elevated to the 10-goal rating since Michael

Phipps in 1939. The captain of the Argentine polo team appeared in Palm Beach for the opening season in 1979, and every year the com-petition has attracted more of the polo world's top players.

France's highest rated player, Lionel Macaire, seven-goaler Podger el Effendi from Pakistan, Antonio Herrera from Mexico and the Hipwood brothers from England join the Argentine elite in Pairn Beach every year for the mallet and ball sport that has caused the area to become known as the "international polo capital of the world."

The growing number of younger players appearing on the fields further insures the area's dedication to the sport, and the increas-

ing number of foreign players making seasonal and permanen homes in Palm Beach offers fond memories to the older residents who can recall the days of Porfirio Rubirosa, and Mdvani brothers. the Russian princes who joined

The resun ection of the tradition is not alone, however, as a grow ing horde of sports enthusiasts have picked up another mallet and cut their own path into Florida sports immortality, the croquet players.

A sport once thought of as one of the more genteel pastimes, croquet has taken the country by storm, as of late, and has also found fit to establish its roots in Palm Beach.

The Palm Beach Croquet Club has called The Breakers its home for some years.

Archie Peck, the president of the Palm Beach Croquet Club has dominated the sport for years, capturing the United States Single Championships on three separate occasions and sharing top honors in doubles competition twice.

"The sport is attracting hundreds of players who are good athletes in their own right," he explains, citing The Beach Club's tennis pro, Byron Thomas and the golf pro at Palm Beach Polo and Country Club, Dana Dribben, "it's no longer a sport a select few of us can keep as our own."

"The character of the area is changing," continued Prentis,
"there are a growing number of
younger athletes participating in more competitive sports including tennis, golf, polo and yes, even croquet. There is new blood moving into Palm Beach County, and the sporting interests are adjusting to accomodate them."

Tennis courts and golf courses continue to attract the same players they have for years, but the development of newer sports that boast both tradition and challenge find themselves bridging the gap between the young and the old. Participants compete, spectators remember, and the sun continues to shine on an area that now offers a hunt, a steeplechasing course and some of the top horse shows in the

Business Has Really Taken Off Since We've Had A Personal Banker.

Personal banking at the First National Bank in Palm Beach is quite special and truly unique.

Your Personal Banker becomes a private aid and consultant in those important areas of your financial life that require personalized service.

Personal banking is not new to First National Bank. In fact, for over 55 years, First National has provided its customers with a private banking atmosphere and individual attention.

So, take advantage of every business opportunity, with the knowledge your Personal Banker at First National will be responsive to your financial needs.

The First National Bank in Palm Beach . . . the logical choice when you can choose any bank in the world for personal banking attention.

Culture thrives in a great resort

Palm Beach, Florida — Once put down as a cultural wasteland, this queen of American resorts rivals most major cities when it comes to the

Whatever brings you the most enjoyment whether it be theatre, music, painting, sculpture, dance, perhaps a lecture, Palm Beach serves it up like a grande salade. There is variety enough for everybody.

But that has not always been

Business tycoons, flushed with new-made millions, and the impeccable social leaders who settled in Palm Beach at the turn of this century - making coconut-strewn beaches their winter playground — left serious business in the North or out West. Palm Beach was for carefree days.

Underneath the frivolous veneer, though, they brought with them a genuine interest in a beautiful lifestyle. They were accustomed to the best that money could buy. Paintings, object d'art, rare antiques. Elegant lifestyles in Philadelphia, New York, Minneapolis and other power-cities, somehow merged during the Palm Beach season, amidst Mediterranean vias, to create a sunswept oasis for the rich and

Serious thinkers who enjoyed a good play by Eugene O'Neil or Clifford Odets or a Mozart concerto, were most definitely in the minor leagues. Cole Porter or George Gershwin or a frothy Phillip Barry comedy helped to while the balmy winter away. No sages, please," could be a fitting epitath for the cottage col-

Like a golden monarchy Palm Beach was a private community up until the 1950's. In the early 1960's, though, the first winds of change rustled through the island, and with the advent of the condominium, which took hold firmly

charm reluctantly made way, however slight, for a new era of

ADVERTISEMENT

But despite its concern over highrises, traffic, pollution, and a population explosion, the character of the town remains impressive. In the words of Cleveland Amory — author of the definitive "Who Killed Society?" — Palm Beach is one of the last great

Equally impressive are the institutions that have helped to mold the island's cultural life. Notable are The Society of the Four Arts, The Palm Beach Round Table, The Norton Gallery of Art, The Royal Poinciana Playhouse and The Henry Morrison Flagler

Of these The Society of the Four Arts has had the greatest impact at least for those lucky enough to be members.

Art exhibitions, concerts, lectures, dance recitals, and the maintenance of a private library, and a sculpture garden are all part of the non-profit organization, in addition, the Garden Club of Palm Beach supervises the Four

The Four Arts has been the batde ground for more than one skirmish between advocates of traditional and modem art.

Membership in The Four Arts is another area of controversy. Limited in space the main buildings, a 700-seat auditorium and gallery can accommodate a limited number of members.

The Norton Gallery of Art, facing Lake Worth in West Palm Beach, was founded by Ralph H. Norton, a Chicago steel milbonaire, together with his wife, who decided to build a gallery to house the paintings they had collected over the years. There was some talk the project might become part of the Four Arts compound. But, according to the late Emilie Keyes, a well-known

journalist, "the ramifications were so many that instead the Norton Gallery and School of Art with a large and lavish building complex became a West Palm Beach in-

tronically, though rated one of the finest art museums in the south eastern United States, The Norton did not attract serious Palm Beach support or even acknowledgment until the 1960's.

No review of Palm Beach's cultural life would be complete without mentioning Mary Howes, a name synonymous with Palm Beach arts especially its theatre. Miss Howes founded and opened the renowned Palm Beach Playhouse in 1951 and was its producer and guiding light

"They scream for culture and when you give it to them as we have tonight they walk out in droves." So lamented Frank Hale in 1960, after the opening night performance of Helen Hayes in The Cherry Orchard," Embarrassed by the field of empty seats that greeted her curtain call, a rastated Miss Hayes - the story goes - vowed never to perform at the playhouse again.

As Palm Beach continues to grow and the entire area landscape to the North, West and South explodes with new buildings, the taste level of the region has had a dramatic metamorphosis. Superior work in both the visual and performing arts prevails. Soldout performances by Beverly Sills, Leonard Bernstein, the New York City Ballet are indicative of what Palm Beach demands today.

Rush of Money Into Market Allows **Borrowing Costs to Fall Sharply**

PARIS — While analysts pondered how much more the terms on floating rate notes could be squeezed, money continued to pour into the market last week — enabling issuers to borrow money at a cost that no lone would have dared thought possible.

The biggest surprise of the week was Spain, regarded as one of Europe's weaker credits. It offered \$200 million of 13-year notes and within hours increased the amount to \$250 million. Investors have the option to request repayment after the eighth or tenth year.

request repayment after the eighth or tenth year.

Interest was set at a thin ½ point over the London interbank rate for six-month Eurodollars.

Spain's low cost of money shocked the market. Allowing for the 114 percent commission paid to banks. Spain will be paying in ef-fect 28 basis points over Libor if the entire loan is repaid after eight sears or only 22 basis points over Eibor if investors decided to hold the notes for the full 13 years. One hundred basis pull 13 years. hundred basis points equal one

percentage point.

A week earlier, the market was sagog when Denmark — consid-ered a better risk than Spain issued \$500 million of 20-year hotes at a cost of 23 basis points over Libor. A fair number of traders apparently sold the Danish pa-per short on the assumption that the price would have to fall sharp-ity, but they were forced to back-

Manager or 1/2 and 1 which

Cedel 7,098.80 5,454.80 1,644.00 Euroclear 12,211.10 11,066.20 1,144.90 The price dropped 65 basis points early in the week but by Friday was ieut to a modest discount of 31 basis points.

As the cost of sovereign paper compressed, so did the cost of high-iquality private-sector issues. Citibank, Sanwa Bank of Japan and Comperzbank all offered floaters with interest set at the interbank rate - the first issues to be offered in the Eurobond market without any margin over

Commerzbank, West Germany's third-largest bank, offered \$100 miltion of five-year floating rate notes with interest set at the three-month Libor rate. At the same time, it offered warrants entitling holders in buy \$100 million of five-year bonds at par bearing a coupon of 11% percent The warrants were sold at \$12½. This income coupled with the low (45 basis points) commission paid to market the floater reduced the bank's post of funds to 20 basis points below Libor.

Citicorp Sells 7-Year Notes

Citicorp, which sold £100 million of seven-year notes, will pay interest at the three-month interbank rate for sterling. A commission of 1/2 percent

means it will pay 7 basis points over Libor for its money.

Sanwa's \$150 million of eight-year ootes, with interest set at the six-month Libor rate, cost the issuer 12½ basis points over Libor as it paid a commission of 1 percent.

Many analysts now believe that margin-free Libor will become the prevailing interest rate and that front-end commissions will be used to fine tune the yield to attract purchasers. The buyers are mostly institutions that can claw back some of the

commission for themselves. Floaters are increasingly being sold to U.S. institutions - money-market funds, savings and loan associations, insurance companies and corporate treasurers - who are drawn to Libor

Porsche To End VW Accord

U.S. Distribution

TROY, Michigan - Porsche AG, the West German sports car maker, has told Volkswagen of America that it is ending their 15year distribution relationship in the United States, VW has said.

Volkswagen said Friday that it was told by Porsche that an import and licensing agreement will oot be renewed when it expires Aug. 31. Volkswagen will continue to im-port and distribute Porsche cars

"While we bave not been informed of Porsche's future business and distribution plans for its prod-ucts in the U.S., the potential consequences of the action are being studied," Volkswagen said.

A Volkswagen spokesman, Tom McDonald, would not comment on the value of the licensing agreement. You you can imagine that distributing 22,000 cars per year at a cost of \$26,000 to \$45,000 per car represents a significant amount of money," he said.

Volkswagen sells Porsche sports cars and Audi sedans through its Porsche-Audi division, which bas 323 dealers in the United States. It said a separate Andi division now will be set up. Andi is a division of Volkswagenwerk AG.

The automaker said it expects sales of Audis to equal or surpass sales of the current Porscho-Audi division because of Audi's sales growth and its future product

plans.
Volkswagen has been the authority
Porsche rized U.S. importer of Porsche products since October 1969. Since then it has sold about 250,000 Porsches in the United States. Porsche sales last year were 22,000, the highest in Porsche history.

Perry Ellis, left, and Robert Haas, Levi's chief operating officer, signing agreement.

Levi Changes Tack, Signs Designer

By Pamela G. Hollie New York Times Service

NEW YORK - Levi Strauss & Co., the largest

U.S. apparel company, until now has resisted putting a designer label on its clothing.

But this month, with the announcement of a licensing agreement with the designer Perry Ellis, Levi joins a growing number of retailers and manufacturers who have teamed up with designers. Mr. Ellis will design a new line of sportswear, including a designer jean, for the company.

We have never done anything like this before,

said Robert Haas, executive vice president and chief operating officer of Levi.
Indeed, the agreement is unusual in the retailing sector. For one thing, the garments will carry both

the Levi and Ellis names. "It's one of the few examples where the manufacturer's name will be given equal prominence to the designer's name," said Mr. Haas, a great-great-grandnepbew of the founder, Levi Strauss.

The pact gives Mr. Ellis control of design, adver-

a new company called Perry Ellis America. Levi will be able to expand and upgrade one line of its sportswear and further reduce its dependence on jeans and work clothes.

Mr. Ellis, who will oow have 14 licensing agreements, said: "There are not very many risks involved. It's a wonderful opportunity to reach an-

Analysts said the Levi pact lits into the growing pattern of transactions between retailers, manufacturers and designers. To reach new markets, department stores and mass retailers have begun to look to designers in give them higher visibility and broader range of products. And designers are now seeking ways to expand their markets and reach more consumers.

Last year, J.C. Penney Co., for example, made a ground-breaking agreement with Halston Enterprises to produce an inexpensive designer line called Halstoo III. Federated Department Stores,

Fed Is Expected **To Hold Course** Despite M-1 Fall

By Michael Quint

NEW YORK — U.S. monetary policy is not expected to change significantly when the Federal Open Market Committee, the policy-making arm of the Federal Reserve System, convenes Monday and Tuesday, many analysis say.

The committee, consisting of the seven Federal Reserve Board governors, the president of the New York Federal Reserve Bank and a rotating group of four Federal Re-serve Bank presidents, meets 10 times a year in decide what monetary policy would best promote U.S. economic expansion and price

This week's meeting is especially important because it preceeds by a week testimony by the chairman of

U.S. CREDIT MARKETS

the Federal Reserve Board, Paul A. Volcker, before congressional committees on Feb. 6 and 7.

Mr. Volcker's appearances before Congress every February and July are closely analyzed by credit market participants because the Fed chairman provides a more detailed explanation of central bank policy than is available from the published summaries of Federal

Open Market Committee meetings. This week's meeting comes at a time when credit market partici-pants are split into two camps those who expect the next Fed move to be toward a tighter mone-tary policy with higher interest rates and those who expect an easier policy with lower interest rates.

U.S. Consumer Rates

Possbook Savings

Analysts from both factions agree, however, that the Fed may decide to hold policy stable until there are clear signs of a need for a change. For the past five months, monetary policy has been stable, as Fed officials seem to be satisfied with the current low rate of inflation and pace of the recovery.

"If there is any change in policy, it will be on the side of ease," said Irwin L. Kellner, chief economist at Manufacturers Hanover Trust Co. Last Friday's announcement of a \$2.7-billion decline in M-1, the narrowest measure of the U.S. money supply, was cited by Mr. Kellner as one more reason for the central bank to refrain from tightening its policy. M-1 consists of currency and checking and similar accounts

"There is a growing chorus of monetarists who say that the Fed bas already kept policy tight enough to push the economy into another recession," Mr. Kellner said. While a new recession is ont imminent, Mr. Kellner said, the Fed might try to speed money supply growth because "another few months of little growth in money supply would tilt the economy dan-gerously close to a recessioo by

Henry Kaufman, chief economist at Salomoo Brothers, said last week that be still expects the Fed to gradually tighten monetary-policy this year. But in the latest issue of Comments oo Credit he said the Fed was oot likely to make any changes in policy at this week's

ments oo its nearly \$100 billion of foreign debt. The products io question account for about one-lifth of Brazil's steel shipments to the United States.

The Commerce Department action comes at a time when the Realign are to grant in the domestic steel shipments to the United States.

The Commerce Department action comes at a time when the Realign are to grant inclined from 30.95 perton to 225.53 percent for hot light of the cootinuing favorable parameters and that "my feelings are to grant it."

for 100 percent of its shares, or by usual for a company's shares in rise some other means. Some suggested that Houstoo Natural, which as retender offer, but analysts said the cently as October reported more run-up probably occurred because than \$100 million in cash and marinvestors expect Houston Natural ketable securities, might respond to make a counterbid for Coastal's with a competing offer for control shares.

of Coastal "My deep sense is that Houston Natural will do everything it can to defend itself," Ernest S. Liu of Goldman, Sachs Inc. said.

Coastal, an oil and gas producer refiner and natural gas pipeline company, said Friday that its proposed takeover would create a "financially sound, well-balanced сотралу.

In a formal statement, O.S. Wyatt. Coastal's chairman, added that the offer gives Houston Natural shareholders "a significant premium" for their shares.

Coastal already owns 5.7 percent of Houston Natural's shares. Its offer, totaling an indicated \$1.3 billion, would thus give it a 50.7-percent controlling interest in the Houston-based pipeline company.

In addition to its pipeline net-work, which intals 4,500 miles (7,300 kilometers) in southern Tex-as, and its oil and gas production unit, Houston Natural has a boatbuilding and marine-transportation business, and a unit that sells

carbon dioxide to industry.

Coastal also said that it would bid for the remainder of Houston Natural's stock if it acquires the 45 percent it is seeking. However, it did not disclose how much it in-tends to offer in this "back side" of the tender, or whether its bid would be in the form of cash or stock.

On Friday, in heavy trading, Houston Natural shares rose more than \$5 in early trading but fell back in close at \$60, up \$3.625 for the day. The company's shares had risen rapidly early in the week amid takeover rumors.

Coastal shares, meanwhile, rose \$3.375, in close at \$37.50. It is un-

On S&L Stock Trading By Michael Quint

New York Times Service NEW YORK - Dean Witter Reynolds Inc., the securities-dealing arm of Sears, Roebuck & Co., could be required to stop trading stocks of savings and loan companies, according to a letter from the Federal Home Loan Bank Board, which regulates the savings and

loan industry. Since 1982, when Allstate Savings & Loan Association was made a part of the Dean Witter Financial Services Group, Dean Witter has been trading the stocks of other savings and loan associations, ac-cording to the terms of a special opinion from the bank board. That opinion, which exempted Dean Witter from rules prohibiting savings and loan holding companies from trading stocks of other savings and loan companies, was re-

cently withdrawn. "A letter has been sent from the bank board to Dean Witter regarding their trading in savings and loan stocks," said Donglas Green, a bank board spokesman. "It is

weapon: price cutting.
"The Soviets operate without paying attention to costs," said Ralf Schneider, a spokesman for the Association of German Shipowners. "Competition is impossible."

According to the shipowners' group, about half of Soviet cargoes involve cross trade - trade between two nations other than the ship's home country. As a result, the group said, Russia's merchant ships move about 5.6 percent of world cargoes even though the Soviet economy generates only about 2.5 percent of world trade.

Prices and market shares on major world shipping routes are set by major shipping companies in arrangements called conferences. But European shippers complain that Soviet lines muscle into tradioonal trade routes by shunning conferloan holding company to trade in savings and loan stocks." A Dean Witter spokesman, who asked not to be identified, said that ence prices and uoderbiddiog Western competitors.

Thus, within four years Soviet vessels on their way home after dropping goods in Cuba have captured about 13 percent of lucrative coffee and cotton cargoes from the Caribbean region to Western Europe by undercutting conventional prices by roughly a third.

why the opinion had been with-Last autumn, the shipowners, with EC backing, reached agree-ment with Soviet transport officials which is a prominent trader and underwriter for stocks of savon limiting price discounts and market shares in the Caribbean trade. And talks are scheduled for later this year on East African trade nontes, where Russian vessels have moved in strongly.

The problem hits the whole Hamburg-to-Bordeaux range," said Waldimer Hofmann, a former EC official, in describing the extent of European damage. Mr. Hofmann is now responsible for shipping in the West German Economics Ministry in Bonn. In 1978, to avert damage to its

sbippiog oatioos — Britaio, France, Germany, Belgium and the Netherlands — the EC began to monitor cargoes on major trade routes to Central America and East Africa. In 1981, the Far East was

French officials say their government plans an initiative to give Eucutting by outside shippers. The year by refusing a request to open a action is prompted by continuing pressure from the Eastern hloc, world's largest port. they said.

Pressure has also grown from Polish shipping lines that are follow-ing the Soviet rate-cutting example

Meanwhile, the national security officials argue that the growing Soviet shipping strength poses a strategic as well as a commercial threat.

There is a Western tendency. unfortunately, to view this purely economically, as the rise of a com-petitor, "said Vice Admiral Ansgar Bethge, a West German expert on Soviet shipping. "That is an error.

And we shall pay for it.

According to Admiral Bethge,
the large Soviet share of West German shipping - roughly one-tenth overall and as much as half or more for such other items as coffee means that German ships assure only one-third of Germany's crude oil needs and one-fifth of its general freight handling.

Moreover, naval experts see a military potential in Soviet merchant vessels, which, they say, are more heavily built than Western ships. Soviet merchant crews, they add, are often oavy conscripts and its officers come from the naval

Military analysts predict that Eastern Europe's transportation ties with the West, and the chance to gaio large shares of shipping, will grow in coming years.

Soviet and West German officials agreed last year to explore the feasibility of a rail-ferry link between the Russian Baltic Sea port of Klaipeda and northern Germaoy. This year, Romania will complete a \$1.7-hillion Danube River canal that will facilitate Eastern European access to the Danube basin. Supplementing that project, the West German government has approved completion of a canal linking the Danube with the Rhine and Main river waterways. That project, Western European inland shippers say, will open the floodgates to cut-rate Soviet-bloc ship

Despite government and busioess concern, there is little enthusiasm in major European ports for curtailing Eastern-bloc shipping.

We are a municipal port authority - we do business with all and any customers," said Robert Vleugels, director of the port authority of Antwerp, Belgium's largest port. Antwerp handles abou 1,200 Soviet ships a year, he said.

Few European governments have yet taken action against the wideoiog Soviet presence. One exception, however, is the rope legal tools, such as counter-vailing duties, to offset price ment irritated Soviet officials last

Rotterdam officials backed the Soviet petitioo but the Dutch government argued that the harbor's role as a major port of entry for to earn hard currency needed to NATO weapons and materiel ruled repay Warsaw's huge foreign debt. out a broad Russian presence there.

All of these securities having been sold, this ennouncement eppears as a metter of record only.

New Issue / January, 1984

\$350,000,000

Citicorp Person-to-Person, Inc.

12½% Guaranteed Subordinated Capital Notes Due January 15, 1996

Payment of Principal and Interest Guaranteed on a Subordinated Basis by

Interest on the Notes is payable semiannually on July 15 end Januery 15, beginning July 15, 1984. At meturity, the Notes will be exchanged, at the option of the Company, for Common Stock, \$4.00 par value, Perpetual Preferred Stock or other marketable permenent primary capitel securities (collectively, the "Capital Securities") of Citicorp having a merket value equal to the principal emount of the Notes.

> The Notes may not be exchanged for Capital Securities prior to January 15, 1991. On or after Jenuary 15, 1991, at the option of the Company, the Notes may be exchanged in whole for Capital Securities having a market value equivalent to the principel emount of the Notes.

The Compeny will undertake to sell the Capital Securities on behalf of holders who elect to receive cash for Cepital Securities upon an exchange of their Notes in en amount sufficient to pay the principal of such Notes.

THE HILLS: Morel Tales From the Blue Stacks

By Robert Bernen. 147 pp. \$12.95. Scribners, 597 Fifth Avenue, New York, N.Y. 10017.

Reviewed by Patrick Breslin

I N 1970, Robert Bernen, Manhattan-born, Harvard-educated, a scholar of classical languages, bought a derelict hillside farm in the Blue Stack mountains of Ireland's County Donegal Abandoning New York and Boston, cides to which generations of poor Donegal farmers had fled, be took up the life they had left behind. In a land of shepherds and story-tellers — what else but sheep, with their attention to detail could live on the sparse coarse tion to detail, could live on the sparse coarse grass; what else to do, when the corthern night closes in at 3:30 on winter afternoons, but spin stories around the turf fire? — Bernen became a passable shepherd and a first-rate storyteller.

Berneo left the United States because he thought its horizons, limited only by the reach of our radio and television sets, too wide. We knew "more about events in Peking [Beijing] and Cape Town than about the lives of our own neighbors." By moving into this modern world, as those immigrant Donegal farmers had done, it seemed to Bernen "that men had exchanged a vertical orientation, a way of seeing the world that, narrow as it was, could be at once both profound and elevated, for a horizontal one, oriented in all directions, endlessly broad, thinly shallow."

Pursning the vertical, Bernen came to the Blue Stack mountains, one of the most traditional regions in Ireland. This is the second volume of stories he has quarried from his experiences as a neophyte sheep farmer, and from a respectful observation of his oeighbors.

For someone highly educated and urbanized to write about rural life is to risk easy romanti-

Solution to Friday's Puzzle

cism. To write about rural Ireland, which in the popular mind has a Barry Fizzerald behind every shamrock, is to risk going mawkish entirely. That Bernen sets not a single scene of these nine stories in the almost inevitable Irish pub suggests how cleanly he escapes the obvious pitfalls.

The stories are deceptively simple: a dog pursues a fox helter-skelter through feoced fields and corners it in a harn; a man sadly executes his favorite dog for slaving sheep and then learns the accuser was mistaken; a priest carries the sacraments to a parishioner dying in a mountain cabin. They are told with precision. a mountain cabin. They are told with precision and restraint, yet each story is richly textured with a profound understanding of the society.

"Sacrament of the Sick." for example, follows a prosperous priest on his rounds and becomes an understated treatise on ancient Donegal dying quietly in the hills, while below, in the more prosperous vallent. more prosperous valleys. Japanese cars swerve around the blacktop roads.

The other stories, describing aspects of Bernen's continuing education in the sheepherding skills, have a mystical. Zen-like quality. lo one, he sets out to train a sheepdog, armed with a how-to-do-it book. In another, he attacks with a scythe the suff rushes growing in his fields. In both, repeated failures cause him to turn to his neighbors. At first, the advice seems unhelpful. He's told, in the one case, to forget the commands to sit, lie and heel, and simply to, being the doc into the house to five with the bring the dog into the house to live with the sound of his master's voice; in the other, to let the scythe do the work. "If you feel it in your back, you're doing it wrong." Only as he is able to shift his focus, like a student of Zen. from ends to means does Bernen grasp the wisdom of his oeighbors' way.

On the evidence of these stories, Bernen found the vertical structure of life, the rooting in the earth that he sought. There is a passage describing bow a mountain house is built that could as well describe his writing:

Strong men quarry irregular stone with crowbar and pick from the hillside. With gravel and clay for mortar and fill they fit the rough. unshaped stones together ioto slowly rising walls. Brown peat-saturated tree trunks preserved in the deep bog, sleeping centuries there before this resurrection, rise rough-hewn to become roof beams and rafters, their parings laths. Grass sods, cut like carpets from the earth cover them over, and then the heavy rushes mown with swinging scythes from the boggy slopes around complete the roof. The house has grown from the ground it stands

"That's it done now,' the builders comment. 'We weren't long at it.'"
Robert Bernen has been at it for 13 years. Let's bope he's not done yet.

Patrick Breslin, a Washington writer, is working on a novel set in Donegal. He wrote this review for The Washington Post.

BRIDGE

By Alan Truscott

THE man who gave us con-L tract bridge, Harold S. Vanderbilt, was full of initiatives — in business, yachting and bridge. One of his bridge ideas was very farsighted: In 1929 he originated, and used with great success, the first strong-club system.

The Vanderbilt Club was virtually ignored by a bridge being sure that the heart suit game. public indoctrinated by Ely was stopped. It was not, and Culbertson. The concept was revived 20 years later in Italy and soon became popular.

The first major club system in North America was developed by the late Howard Schenken, one of the greats of the game. He played his Big Club successfully in national and international championships, with Peter Leventritt as his regular partner.

The Big Club standard is now carried by Schenken's widow, Bea Schenken. She would have liked to bid one strong club with the South cards on the diagrammed deal,

bridge game and standard bid-ding was the order of the day. would have been tempting ar g was the order of the day.

been much easier. she had a bad moment when a heart was led and the dummy appeared. But the suit split

evenly, and it seemed that all

East won the fourth round of hearts and shifted to the club nine. The queen was played and covered with the king and taken by the ace. This was good play by West, for it was important to remove dummy's cutry.

The normal play at this point was to lead to the diamond ace and go down to de-feat. But Mrs. Schenken asked herself why East, an aggressive

but the occasion was a rubber bidder, had not opened with a After opening a natural one favorable vulnerability with

diamond in second position, any six-card suit.

and hearing a weak jump to three clubs, Mrs. Schenken has spades, then West must have, a very difficult bid. Playing her three. And that added up to a own methods, life would have void diamond in the West hand, so Mrs. Schenken took a. As it was, she had to take a first-round finesse in diastab at three no-trump without monds and brought home her

SPORTS BRIEFS

Payne Stewart Is Leader in San Diego Open

SAN DIEGO (UPI) - Payne Stewart sank a 12-foot birdie putt on the 18th bole Saturday for a 4-noder-par 68 to maintain a one-stroke lead after the third round of the San Diego Open golf tournament.

Stewart was 15 under par at 201 through the third round, a stroke ahead of Andy Bean, who shot a 67 Saturday. Ray Floyd and Chip Beck, with 69s in the third round, were tied at 203. Gary Hallberg, the defending champion, fired his second consecutive 66 to vault back into contention. He was tied with Mark O'Meara at

Stewart began the third round with a one-stroke lead over Floyd, Beck, Don Pooley and Brad Bryant. Pooley and Bryant fell back to the pack Saturday with third-round totals of 205 and 206.

Don Perry Is Fired as Coach of NHL Kings LOS ANGELES (AP) — The Los Angeles Kings have fired Coach Don Perry and named the assistant coach. Rogie Vachon, to the position until a permanent

replacement is found. Bob Steiner, a spokesman for the National Hockey League team, said Friday that replacements for Perry and George Maguire, the general manager, would be named

at a oews conference early this week. Perry, who became the Kings' coach oo Jan. 11. 1982, departed with a 42-85-30 overall record. The Kings are in last place in the Smythe Division of the Campbell Conference this season. The team was 27-41-12 in the 1982-83 season. In 1982, he guided the team to the Stanley Cup playoffs.

Argentine Retains WBA Flyweight Title

MARSALA, Sicily (UPI) — Santos Laciar of Argentina, the World Boxing Association's flyweight champion, retained his title Saturday night with a 15-round split decision over Juan Herrera of Mexico.

Laciar retained the title in his sixth defense. The scoring was 146-142, 145-142 and 143-146. Laciar improved his record to 55-6-10, with 21 knockouts, Herrera is 32-4-1, with 21 knockouts.

For the Record

A Greek student kindled the Olympic flame from the suo's rays Sunday in Ancient Olympia, Greece, for the 14th Winter Games. The flame, which will burn during the 13-day Olympiad in Sarajevo, Yugoslavia, starting Feb. 7, was carried three miles by 10 Greek runners, then taken by plane to Athens. It was to be flown to Yugoslavia on Sunday night. (UPI)

Gerrie Coetzee of South Africa, the World Boxing Association's heavyweight champion, will make his first title defense against Alfredo Evangelista of Spain on May 5 in Johannesburg, (UPI) Dick Tidrow, a relief pitcher last season for the Chicago White Sox of the American League, has signed a contract with the New York Mets of the National League. Tidrow, in 13 years in the major leagues, has also pitched for the Cleveland

Indians, New York Yankees and Chicago Cubs. (UPI)

Three Canadians set world's best times in the Canadian Winter National shortcourse swimming championships in Winnipeg. Manitoba: Victor Davis, 200-meter
breaststroke, two minutes, 9.81 seconds; Alex Baumann. 200-meter individual
medley. 1:58.51; and Mike West, 200-meter backstroke, 1:57.90. (UPI)

Evert and Lloyd Separate After Almost 5 Years The Associated Press

NEW YORK - Chris Evert Lloyd and John Lloyd have begun a trial separation after almost five years of marriage.

A spokesman for the tennis players on Friday quoted Evert as saying. "There's still very much a chance that we will get heek together. At the present the still of the still the still the still the say the still the s back together. At the present time, we need time to be by ourselves."

They were married on April 17, 1979. But as Evert's game reached new heights—she won her third Wimbledon singles crown in 1981 and her sixth
U.S. Open singles title in 1982

— Lloyd's fortunes tumbled. A
member of Britain's Davis Cup team, Lloyd was ranked in the top 30 in the world in 1977, but be fell to 356th by the end of

1980. He currently is 77th. Press Association, Britain's domestic news agency, quoted a friend as saying that Lloyd's drop in the rankings and the couple's being apart during tournaments had put pressure on the marriage.

New York Times Service W YORK — "When a long 'r eets a good one, he knows i away. As soon as I left the I knew it was at least 28-6." I Lewis made that comment a ninutes after he broke his indoor long-jump mark by than 9 inches by reaching 28 *04 inches (8.79 meters) at the ose Games here Friday night.

per hour), and Lewis's outdoor best, also 28-1014, set last June in Indianapolis with an aiding wind of 1.89 meters per second.

Lewis's performance at Madison Square Garden, at sea level with no aiding wind on a short indoor runway, was called by track experts superior to both. We figured very conservatively that Beamon's jump was helped from 6 inches to a foot by the lowered air resistance of only two long jumps compa-were Bob Beamon's world i of 29-2½; set in the high de of Mexico City in the 1968 pics, with an aiding wind of 2 pics, with an aiding wind of 2 least 29-6¼ under the same condis per second (about 4.5 miles tions as Beamon's."

arl Lewis about to land on his record-setting long jump.

short runway and the hard landing pit, it sounds like well over 30 feet in me," said Garry Hill, the magazine's managing editor.

In terms of other events as compared by the International Amateur Athletic Federation's scoring tables, a 29-614 jump is the equiva lent of a mile run in 3 minutes, 40 seconds (compared to the present world record of 3:47.33), or a 100meter dash in less than 9.58 seconds (compared to the world record of 9.93)

· As impressive as the jump was the way it was achieved. Usually, Lewis wins his on his first attempt as he did at Helsinki last August in capturing the world championship by 10 inches with an opening leap of 28-4. On Friday might the 22-year-old American did it on his final jump.

A loose board at the start of the runway gave trouble in his approach to the takeoff board. On his first attempt, he took off nearly two feet behind the scratch line, and his jump measured only 22-2½, perhaps his poorest mark since grade school. He took the lead with 26-II's on his second, but fell behind Larry Myricks in the fifth round.

And when Myricks reached 27-61/2 on his final trial, Lewis appeared to be beaten.

"After my fifth jump, I spoke to my coach, Tom Tellez, and he said I was too close to the board and told me to move the start of my run back a foot," Lewis explained. "And I did."

He added: "When I was standing at the end of the runway I said to myself I have got to be mentally tough, because this could happen to me in the Olympic Games. Being able to come from behind is as important as winning. I had to jump well, and I had one jump to do it. I have to thank Larry for

U.S. Companies Ease Burden of Olympic Athletes

NEW YORK - Andrew Bessette, unable to mix the pressures of work and

able to mx the pressures of work and sport, almost stopped training for the Olympics.

"I needed to make a living," he said, "but after eight hours at an office, who has energy to hurl a hammer?"

Personnel or make that choice now.

ssette need not make that choice now. He is a world-class competitor in the ham-mer throw, working 30 hours a week in Hartford, Connecticut, as a personnel administrator for Travelers Corp., an insur-ance company, but being paid for 40 bours. He spends the rest of the time at the University of Connecticut, in Storrs, practicing for the I984 Olympic trials in June. Bessette is one of several hundred ama-

teur American athletes who are benefiting from a recent interpretation of Olympi rules. As the 1984 Games draw closer, more and more corporations are providing jobs and support for Olympic contenders. Preparing for the Olympics, athletes and coaches say, is expensive, both in training

and equipment and in time lost from ca-

reers that are postponed until after the

Although 277 American athletes are receiving help from corporations, thousands of others are still on their own. And even those with sponsors say they have to make

The idea for corporate sponsorship was

developed during the 1976 Olympics by Howard Miller, then the president of Can-teen Corp., while he was watching a wres-tling match.

"Why should our athletes have to do it

all themselves?" be remembers thinking. "In other countries the government pays; in the United States, why not the corpora-

Miller's plan, now officially the Olympic Jobs Program, is administered by the U.S. Olympic Committee, based in Colorado Springs. Canteen Corp. is one of 130 com-

panies participating in the program.

Top-ranked amateurs are matched with companies willing to give them a full-time job, several hours of company time each day to train and extra vacation time in attend tournaments around the world. "This is the only way I could have kept

going," said Bessette, who at 30 has reached what many experts consider the peak age for his sport. "They're not paying me to be an athlete, they're paying me to do a joh. But I'm able in get on with my career this way, too, so I won't be starting new when I finish competing." That Bessette and others are being paid

program, say its directors, who stress that Olympic rules were reinterpreted, not broken, in creating the plan. They are salaried employees or they are

working for their tuition, that's legal," said

Cheryl Abbott, administrator of the program. "It's just that Americans have never thought of doing this before."

According to rules passed before the 1976 Games by the International Olympic Committee, Miller said, athletes can receive money "as long as what they're paid to do professionally isn't what they do

"That's why the Russians can call Olga Korbut a first lieutenant in the Russian Army and pay all her expenses," he said.

To quality for the program, athletes
must apply to the U.S. Olympic Committee and must be ranked by the committee as potential Olympic athletes. Files on the

athletes who qualify are sent to participating corporations.

Bessette was given his job at Travelers in

Each morning he arrives at the office at 7:30, before the rest of the staff, and works until 1:30 P.M. When most of his coworkers are finishing lunch, Bessette heads for the university, where he throws hammers of different weights for four hours. His evenings are spent at home in Tolland taking ballet lessons to improve his agility.

to work, not in train, is the crux of the For Dennis Milton, a national champie boxer, the major need to keep up his training was money. Under a separate Olympic grants program sponsored by Anheuser-Busch and called Olympic Gold, be has been able to study at Pace University in

a part-time job. The company pays his tuition and reimburses him for the income

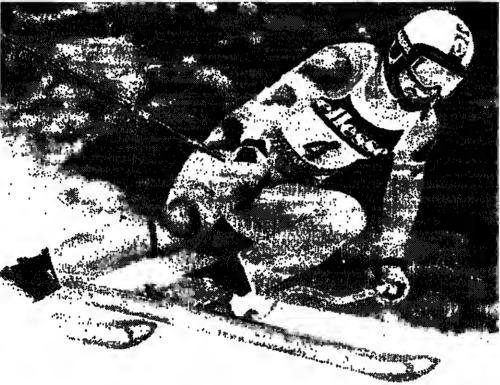

lost when he is at tournaments. In return, Milton is expected to maintain C average and a ranking in the top 12 of the middle-heavyweight class, and he has agreed to appear in promotional materials that Anheuser-Busch released about the

For Robert R. Djokovich, a member of the national handball team, the main problem was finding enough vacation time for

He is a licensed electrician who was looking for a job when he received an offer to work as a broker in New York. For the past two years his employer. Lasser Mar-shall Inc., has allowed him to take unlimited paid vacations to attend tournaments.

"We needed a broker, and Bobby needed someone to help him out," said Michael H. Judge, vice president of Lasser Marshall. "He has made a good contribution to the desk. I hope we're making some contribution to the team.

In 1983, Djokovich. 27, took off 15 weeks to compete in such places as Roma-nia, Cuba, Iceland and Hungary. This month be began a leave of absence to train full time with the team in Boulder, Colorado. Lasser Marshall has promised him his

Hess Takes Giant Slalom in France

women's giant slalom race Sunday now." in the final World Cup skiing event before the Winter Olympics at Sarajevo, Yugoslavia.

Hess, last year's World Cup women's champion, completed the two runs of 48 and 45 gates along the Saint Gervais course in 2 minmes, 24.05 seconds. It was her fourth victory of the season and gave Hess a 16-point lead in the 1984 World Cup standings with 214 points. She also is the overall leader in the World Cup giant sla-lom, having won two of the three

Second in Sunday's giant slalom was Cristin Cooper of the United States in 2:24.94. She was followed by Carole Merle of France in

The two-day meet, run on fast snow and under sunny skies, was a sweep for Switzerland, with 17year-old Michela Figini winning Saturday's downhill at Megève.

Her 14th-place finish in Sunday's giant slalom gave Figini the top combined total for the meet. She now is tied for fourth in the overall World Cup standings. West Germany's Irene Epple,

third in the overall World Cup standings with 178 points, was 19th on Sunday. Hanni Wenzel of Liechtenstein, who is second overall with 198 points, finished 23d. Epple's sister, Maria, was disqualified Sunday for missing a gate

in the first run.

Andreas Wenzel Wins Supergiant Slalom Race

GARMISCH-PARTENKIR-CHEN, West Germany — Andreas Wenzel of Liechtenstein won a World Cup supergiant slalom race here Sunday, edging Pirmin Zür-briggen of Switzerland by ninebundredths of a second.

Wenzel posted a time of one minute, 36.53 seconds over the demanding 51-gate, 2,220-meter (7,283-foot) course. It was his ninth career victory and his second this

Zürbriggen, the current leader in the World Cup downhill and overall standings, clocked 1:36.62 through the course, which has a drop of 555 meters. Hans Enn of Austria took third with a 1:37.55 after hitting a gate in the middle of the icy course. Luxembourg's Marc Girardelli was fourth at 1:37.62. Sweden's Ingemar Stenmark

continued his hot streak with a fifth-place 1:37.68. On Saturday, in the men's downhill, Steve Podborski posted Canada's first victory of the season. Pod-

borski covered the 32-gate, 3,320-meter course in 1:56.95, finishing ahead of Erwin Resch of Austria. Resch was timed in 1:57.20, fol-

lowed closely by teammate Franz Klammer, the 1976 Olympic gold medalist in 1:57,44.

Peter Müller of Switzerland, getting off to a shaky start in the tricky turns at the top of the course, made up time in the flats to finish fourth in 1:58.00. His teammate, Silvano Meli, took fifth in 1:58.10, and Zürbriggen was sixth in 1:58.23.

Zürbriggen won the combined event, computed from Saturday's downbill and Sunday's supergiant slalom, ahead of Wenzel.

Phil Mahre of the United States, the defending overall World Cup champion, did not race bere. Coaches said he was preparing for the forthcoming Olympic Games at

Sarajevo, Yugoslavia. The victory was Podborski's third at Garmisch — he also won here in 1981 and 1982.

"It helped knowing I could do it here," he said. "But each race is different, and you never know what will happen."

The only mishap Saturday oc-curred when Michael Mair of Italy a dislocated shoulder.

a strong all-around skier, had been the favorite for the supergiant, the conference titles. World Cup's cross between a downhill and a giant slalom.

"Technically, it's a demanding run," Wenzel said. "I didn't manage it without a few mistakes." None of the top three downhillers raced the supergiant, saying

As Vikings' Coach; Aide Is Successor

Compiled by Our Staff From Osspatches MINNEAPOLIS - Bud Grant, the Minnesota Vikings' coach, has resigned from the National Fontball League team after 17 years in

the position.
Les Steckel, who had served under Grant for the past five seasons as receivers' coach, was named Sunday to replace him.

Grant, 56, announced his unexpected resignation in Honolulu on Friday after telling the team's president, Max Winter, of his decision. He will be a consultant for the final year of his three-year contract.

"I'm not burned out," Grant said. "I've enjoyed coaching so much that I never looked forward to retirement from my job."

The team finished 8-8 last seafell at the finish line and had to be son, but he said that did not influhelped off the track. Coaches later ence his decision. The Vikings had said be was in a local hospital with a regular-season record of 151-87-5 during his tenure. They made the Wenzel, who has a reputation as playoffs 12 times and won 15 division titles, one NFL title and three

The Biggest of the Big

By William Safire WASHINGTON — Jack Nich-olson, the actor, does not consider himself a mere star. Nor is superstar world-classy enough. He calls himself a megasuperstar.

John Naisbitt, the futurist, wrote a book two years ago about what he called in his introduction "10 major transformations taking place right now in our society." He called these megatrends and produced out only a megaseller but a marketing catchword: A salesman for Cabbage Patch dolls was quoted last Christmas as saying, "This craving for tactile sensations is a mega-

As a prefix, mega- is very big these days. Stars get Big Bucks. but superstars and their mega- superiors get megabucks, a term coined in 1946 by U.S. scientists to describe the amounts of money needed to finance atomic research. Scientists were long familiar with the prefix having used it in such medical terms as megadont, "having large

The swelling of mega- has caused the diminishment of most of the other great prefixes. What's become of arch-? Remember Professor Moriarty, the archeriminal who was Sherlock Holmes's archenemy? Remember when right-wingers and other political troglodytes were called archeonservatives? All gone.

Falling along with the arch- is hyper-, hut for a different reason; The prefix of hypersensitive and hypertension has oow become the noun hyper, with an assist from the metaphor of the hypodermic nee-

Super-, now often procounced as an arch, exaggerated soop-a, has a 1940s feel. Superman, George Bernard Shaw's translation of the Nietzschean Ubermensch and a name popularized by the comic-strip hero created by Jerry Siegel and Joe Shuster, is now a nostalgia

Who goes to a tiny, mom-andpop supermarket anymore, when discount food chains sprawl across shopping mails? A spread with more than 100,000 square feet takes its name from the French hypermarché, as hyper- makes its inroad into super-'s domain.

Congressmen may probe super-funds, Chinese diplomats may roundly denounce all superpowers, and those of us in Washington will

not soon forget the Superbowl, but the current meaning of the prefix super- is "big in the old days.

Ultra- oever made it big. Ultraman was a knockoff of Superman, and as an avid comic-strip reader, I was sure Ultraman could be easily drowned by Suhmariner. Ultra- is a literary prefix, used occasionally in terms like ultrafashionable or ultraliberal, and is oow used to coin technical or fashion terms like ultrafiche or Ultrasuede.

Now we get to the Four M's: meta-. mega-, macro- and maxi-. (Magni- is insignificant.) I turn to Sol Steinmetz, who has put the language of size under his microscope at Clarence Barnhart Books.

"Meta- shares with super- the sense of 'surpassing transcending.' says Steinmetz, "as in metaculture, metahistory and, in recent years, metacriticism, metasystem. Frankly, I foresee no exciting future for this rather prim professori-

Mega- has had a popular run of about a generation and, I have a hunch, may be peaking, "Both the lates: prefix of bigness," says Sol, "and perhaps the one that will ultimately attain the widest use, is maxi-, created in the 1960s from maximum to contrast with the successful mini-. Maxi- has been steadily gaining ground since its humble emergence as a prefix for a garment length in maxicoat, maxidress, etc. Recent examples of its use include maxicassette, maxibudget, maxisecret, maxitaxi and maxisingle (phonograph record)."

My money is on macro-, ever since I went shopping for a lens for close-up photography. Macrocosm goes hack to the 1600s and has beaten out megacosm to mean "uni-versal" or "the great world." We now have macroeconomics for those seers who like the Big Picture, and with the onset of micro- as a pre-ferred prefix for little things, the contrasting macro- offers growth opportunity with minimum down-

MUSIC lovers the world over have joined in an orchestrated chorus of denunciatioo about a false assertion in a piece about the pronunciation of stine versus steen. Leonard Bernstein, the conductor is a stine, and I had better believe it.

Balanchine's Ballerinas

International Herald Tribune

D ARIS - Robert Tracy, a 23year-old American dancer, is the author of "Balanchine's Ballerinas," which has been receiving glowing notices and is selling briskly. Tracy completed his interviews for the book while on a scholarship at Balaochioe's School of American Ballet. He danced in Balanchine's re-creation of "Le Bourgeois Gentil-homme" with Patricia McBride and Rudolf Nureyev and later Broadway, He came to Europe to confer on the book's publication in England, France, West Germany and Italy, where editors have expressed interest. He spent last week in Paris to consult with Martha Graham on a proposed volume about her Greek dance

"My Balanchine book is not an official biography. That would be

By Thomas Quinn Curtiss an enormous project and one be-yond me now. Richard Buckle, who wrote the lives of Nijinsky and Diaghilev, is undertaking it." explained Tracy. What I have tried is to show Balanchine through the eyes of the hallerinas he formed. He had a permanent influence on them and some of

them influenced him, too, both personally and professionally."
"Ballet is Woman," Balanchine once declared, adding a typical mystic note to the description: "A woman who is an angel sent to me to be transformed into a figure of the dance." Tamara Geva, one of his trans-

formed angels, has a more realis-tic view. "Artistically every wom-an got something out of him. They said, 'Make something of me, and he usually obliged." Tracy reflects on the career of the dance magician from the recollections of his creations; of Alexandra Danilova, who danced in

Balanchine, Suzanne Farrell in "Don Quixote" (1965).

his evening of youthful ballet in post-war Petrograd, of the late Felia Doubrovska, who was a student of the Imperial school -as he was — and performed in the Diaghilev company when Balanchine was its choreographer; of Tamara Toumanova, the initial "baby ballerina"; of Suzanne Farrell, the quintessence of the Balanchine dancer, and of Danilova's pupil, Darci Kistler.

The "angels" — the reminis-cences of 19 of them are included -see their transformer from various angles, but all are in agree-ment about his irresisuble charm. "I could never tell you how

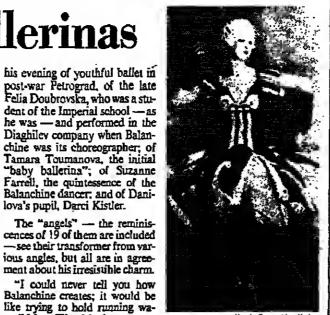

ter," Mary Ellen Moylan remem-bers. "His creativity seemed to spring like a fountain -so easily. He was inscrutable about any meaning his ballets might have. but he was a prince to work for. He had a sense of humor, and there was a feeling of camaraderie at rehearsals. . . . When he choreographed he would show a step quickly, and then I would do what I thought he did. Maybe I didn't do it exactly the way he did it, but it was approximate. That's where a dancer puts a little of herself into the creation. In Balanchine's work the individuality

never screams, never argues, but he always gets what he wants," testified Tamara Toumanova.

"There is a Balanchine technique, but no one knows it unless they have worked with him. You can't just look at the ballets and know. It's not just moving fast," says Maria Tallchief.

When he mounted "Don Ouixote" he said the ballet was about the hero's finding an ideal, something to live for and sacrifice for and serve. For the Don it was Dulcinea, I myself think everything a man does, he does for his ideal woman."

Born in St. Petersburg, the son of a Georgian composer, Balanchine entered the Imperial Theater School as a ballet student and during the years of war, revo-lution and civil war trained as a seeking and finding new forms dancer. In 1922 he organized a and new hallerinas.

Alexandra Danilova dancing in "Le Bal" (1929)."

young ballet troupe on modernistic lines and obtained permission to tour with his group abroad. In Paris he joined Diaghilev's ballets as dancer and choreographer, and remained a member until the impresario's death, after which the company disbanded.

For a spell be was with the Monte Carlo ballets, staged revues in London for C.B. Cochran, the English Ziegfeld, and formed a dance ensemble of his own. The wealthy Bostonian Lincoln Kirof a dancer always comes into stein was impressed with the en-"He's the most dignified person I've ever worked with. He ed Balanchine to come to the ed Balanchine to come to the United States to establish a school and a company.

As striking as Balanchine's achievements was his amazing resourcefulness. In faminehaunted Petrograd in 1920, he took to playing piano accompani-ment for dancers in cabarets. He had inherited his father's talent, and his deep understanding of music, reflected in his productions, was the key to his happy association with Stravinsky. When his avant-garde style failed to please in his early American years, he choreographed Broadway shows and films. His "Slaughter on Tenth Avenue" interlude in "On Your Toes" made ballet a permanent feature of the American musical.

In his seventies (he died last year at 79) he was still growing.

The Clean Up of Soho By Leslie Dowd

LONDON POSTCARD

LONDON — The red lights of London's Soho district are dimming as a dogged campaign by police, residents and city fathers closes down pornographic book-shops, sex cinemas and topless

Anti-vice campaigners in 1982 counted 165 sex establishments flourishing in Soho, the cosmopolitan district in the heart of the capi-

Now, in the face of police raids, the harsh application of new laws and a determined clean-up cam-paign by residents, the number of sex bookshops, bars and cinemas is below 100.

The results of the clean up. which reflects some disillusion-ment in Britain with the sexual permissiveness of the past, is plain to see in the area settled by French Huguenot Protestant refugees in the 17th century. -

Two years ago Soho was ablaze with garish neon signs offering in-rid books, magazines and films, a bewildering variety of sex aids, striptease clubs, sex cinemas and topless bars.
Today the old Soho is reasserting

its style and character, and gaining favor again for its restaurants, tea shops and delicatessens rather than the offerings of "the vice," as Soho residents call the people who work the sex trade.

Most of the signs have been swept away, and some once-profitable sex establishments stand empty. Remaining sex shops have blacked out their shopfronts.

"Soho has survived the sex invasion and we are oow over the hump," says Bryan Burronghs, a clean-up campaigner. "But it was a damn close-run thing. In the mid-1970s things got so had that it was clear it was either them or us."

Burroughs is vice-chairman of the Soho Society, a residents' pres-sure group that has grown to 1.200 members since it was established in

"We even had prostitutes joining." Burroughs said. "Some of them didn't like what was happening to the area. Paradoxically, real sex was being driven out of Soho, which had been a very romantic place. There's not much erotic about sex shops.

New laws last year enabled the opened - as a cafe.
